Net Weight 16 oz.

EPA Reg. No. 42964-3
EPA Est. 11715-TN-1

Directions For Use: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Shake well before using. Remove protective cap. Hold dispenser upright and aim spray opening away from you. Press button to release mist.

To Kill Flying Insects: (Small flying insects—Houseflies, gnats, mosquitoes.) Close all doors and windows. Spray 8-10 seconds for each 1,000 cu. ft. Keep doors and windows closed for 15 minutes after spraying. Spray upward using circular motion. Double length of spraying time for wasps and hornets. Do not remain in treated area. Ventilate the area after treatment is completed.

To Kill Crawling Insects: Roaches, Fleas, Silverfish, Waterbugs, Ants: Aim spray directly at insects where possible. Aim spray into cracks, crevices, and darkened areas behind sinks, cabinets, stoves, baseboards, and floor coverings. For fleas, treat animal sleeping quarters. Spray ant trails—particularly around door sills and window frames. Leave room closed for 15-20 minutes after spraying area. Repeat treatment as often as necessary.

For Bedbugs: Dismantle beds. Spray all parts thoroughly—frame and springs, seams and tufts of mattresses. Spray all cracks and possible hiding places in nearby walls and floors. Sweep up and destroy insects. Repeat as required.

PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When the product is used in these areas, apply only when the facility is not in operation.

First Aid: Give milk or water if ingested. Do not induce emesis. For eye contact, flush thoroughly with water.

Physical and Chemical Hazards: Contents under pressure. Exposure to temperatures above 130°F may cause bursting.
