A-33.

AIRWICK PROFESSIONAL 40 Seaview Drive
PRODUCTS DIVISION Secaucus NJ 07094
AIRWICK INDUSTRIES INC

PERFORMANCE SPECIFICATIONS

How A-33 works: A-33 is a balanced formulation combining Airwick's true odor counteractants, a non-ionic synthetic detergent, a quaternary ammonium compound, organic chelating agents and synergizing builders... for effective cleaning, disinfecting and counteracting of odors in one labor saving operation.

As a detergent: A-33's BIODEGRADABLE detergents in combination with synergizing builders (a) loosen soil through superior wetting and penetrating action; (b) suspend insoluble matter in solution; and (c) emulsify oil and grease. Low foaming A-33 leaves surfaces soil-free and film-free.

As a disinfectant: Used as directed (2 ozs. per gal. or 1 to 64) A-33 provides approximately 460 ppm (quaternary) of one of the most potent germicides commercially available enhanced by chelating agents which inactivate metallic ions to increase effectiveness. On environmental surfaces A-33 rapidly destroys a broad range of gram positive and gram negative organisms such as those listed on the opposite panel.

Directions for use: General classification. It is a violation of federal law to use this product in a manner inconsistent with the label instructions.

Mix 2 ozs. of A-33 with one gallon of water—hot or cold.

Apply use dilution with a cloth, mop, brush or sprayer. Wet all

surfaces thoroughly. No rinse necessary unless used on food contact surfaces. Treated food contact surfaces must be rinsed with potable water prior to reuse.

STORAGE AND DISPOSAL:

Storage: Store at ambient temperature. Keep container tightly closed when not in use. Do not freeze. Do not mix with soaps and detergents.

Disposal: Do not reuse empty container. Triple rinse empty container with water and discard into trash collection.

Use: A-33 is intended primarily as a heavy duty cleaner where disinfection and true odor counteraction are also indicated. It is unsuited for washing hard surfaces such as porcelain, tile, glass, stainless steel, chrome, and does not damage washable painted, varnished or lacquered surfaces. Because A-33 rinses spot-free, it is particularly suitable for linoleum, rubber, sealed cork, vinyl and asphalt tile floors. It has superior rinsing qualities and is an excellent cleaner for marble or terrazzo. A-33 is recommended for use on conductive flooring.

A-33 was tested according to A.O.A.C. (13th ed.) Use Dilution procedure at 20°C, against the following organisms:

Staphylococcus aureus	1:64	Serratia marcescens	1:64
Salmonella choleraesuis	1:64	Shigella flexneri	1:64
Pseudomonas aeruginosa	1:64	Shigella sp.	1:64
Proteus vulgaris	1:64	Aspergillus niger (mold)	1:61
Escherichia coli	1:61	Candida albicans	1:64

Fungicidal (1:64) vs. Trichophyton interdigitale (Athletes Foot Fung) when tested according to A.O.A.C. (13th ed.) fungicidal test. **Bactericidal (1:64)**—kills *Aspergillus niger* which causes "Black Mold" on contact on environmental surfaces.

Virucidal (1:64)—an environmental surface kills influenza A, (Aichi), Parainfluenza (Sendai), Canine Distemper, Feline Pneumonia, Herpes Simplex and Vaccinia viruses. As a **Fungicidal:** Apply use dilution (1:64) to pre-cleaned hard non-porous surface. Wet surface thoroughly. If not washed or rubbed off, it will control the growth of mold and mildew on environmental surfaces for a period of 7 days. To maintain fungistatic control repeat application in 7 days or when new growth appears.

PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS.

Warning: May cause eye damage or skin irritation. Do not get in eyes or on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Avoid breathing spray mist.

First Aid: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink a large quantity of water, egg whites or gelatin solution. Avoid alcohol. Call a physician.

Printed in U.S.A. Keep from freezing. 01/12/78

DATA

PROFESSIONAL PRODUCTS

A-33

**HEAVY DUTY DETERGENT/
DISINFECTANT ODOR-COUNTERACTANT
For Hospital and Institutional Use**

ACTIVE INGREDIENTS:
n-alkyl (80% C₁₂, 30% C₁₄, 5% C₁₆, 5% C₁₈) dimethyl benzyl ammonium chlorides 30%
INERT INGREDIENTS 67.0%
(includes essential oil odor control agents)

Keep Out of Reach of Children.

WARNING

See First Aid and other Precautions on Side Panel.
