Ecolab Center
St. Paul, MN 55102

Attn: Ann M. Oxford
Specialist, Regulatory Services

Subject: Bac-Tex
EPA Registration No. 42964-9
Your Submission Dated April 27, 1993

This is in regard to the submitted updated labels, and the ownership address record.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the following revisions before releasing the product bearing the amended labeling.

- 1) Move "Avoid contamination of food" to the end of the precautionary statements.
- 2) Revise "Avoid prolonged contamination with skin" to read "Avoid contact with skin."

Please note that ^{when} copies of your label are requested for review, you should send reproductions/photocopies instead of the plastized sample we received.

If you wish to print final labels prior to receiving our acceptance letter, please submit photocopies of labels (other than paper labels), in addition to the final printed label.

Your change of address has been processed.

CONTAINS OPTICAL COLOR BRIGHTENERS FOR ALL COLOR CARPETS. AIR FRESHENED EFFECT

BAC-TEX is an excellent rug shampoo in concentrate form. It inhibits the growth of microorganisms on any rug or carpet. BAC-TEX also incorporates Airkem's famous air freshened effect. Therefore, instead of the air smelling like a carpet, the air smells clean, like the outdoors.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner not intended by the manufacturer.
Vacuum carpet to remove dust and loose soil. Dilute with water. Fill solution tank with diluted BAC-TEX in a gallon of water. Fill solution tank with diluted BAC-TEX. Apply with overlapping strokes without soaking the carpet. When dry, the carpet will have an air freshened effect.
Always test a small, hidden portion of the rug with a white cloth. If the cloth is discolored, do not use BAC-TEX for color fastness. Use only on color-fast carpet.

KEEP FROM FREEZING
