A-33 Dry is a complete one-step disinfectant-cleaner-virucide-fungicide-odor counteractant, which is effective in the presence of protein (5% blood serum) when used as directed.

A-33 Dry is a concentrated, premeasured detergent-disinfectant-odor counteractant. Its biologic stable, nonionic detergents and alkaline builders provide the wetting, penetrating, suspending and emulsifying action needed for even the most difficult soils. The low-foaming action leaves surfaces spot-free.

Odor control agents in A-33 Dry actually counteract odors to leave the area smelling fresh and clean. . . . Airwick's famous air freshened effect.

A-33 Dry is intended primarily as a heavy duty cleaner where positive disinfection and odor counteraction are required. It is unsuited for cleaning nonporous hard surfaces such as porcelain, glass, tile, stainless steel, chrome, vinyl, linoleum, asphalt or rubber.

**Directions For Use**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Prepare a fresh work solution daily or more frequently as required. Do not mix with other chemicals. One container (90 packets) makes 90 gallons of solution.

**Disinfection:**

For hospital disinfecting and cleaning of nonporous hard surfaces such as walls, tables, floors, bed frames, bathroom fixtures and other similar surfaces, dilute one packet per gallon of warm water. Stir gently for a uniform solution. Apply solution with mop, cloth, scrubber or other suitable applicator, so as to wet all surfaces thoroughly. Allow to remain wet for 1 minutes. Remove solution and entrapped soil with a clean wet mop, cloth or wet vacuum pickup. For heavily soiled areas a precleaning step is required.

A-33 Dry provides approximately 450 ppm of one of the more potent combinations of germicides available.

**Effective as:**

**Virucide:** On environmental surfaces, A-33 Dry kills viruses such as: Influenza A<sub>1</sub> (Aichi), Parainfluenza 1 (Sendai), Herpes simplex, Vaccinia, Canine Distemper and Feline Pneumonitis, in the presence of protein (5% blood serum). **Fungicide:**

Passes A.O.A.C. fungicidal test vs. *Trichophyton mentagrophytes* in the presence of protein (5% blood serum).

It is an effective fungicide when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc.

**Other Organisms:** A-33 Dry has been found to be an effective disinfectant against a broad spectrum of bacteria, both gram positive and gram negative organisms in the presence of protein (5% blood serum).

**A.O.A.C. Use Dilution Confirmation Test:**

- |   |   |
|---|---|
| <i>Salmonella choleraesuis</i> ATCC#10708 | <i>Escherichia coli</i> ATCC#11229          |
| <i>Staphylococcus aureus</i> ATCC#8538    | <i>Proteus vulgaris</i> ATCC#33071          |
| <i>Pseudomonas aeruginosa</i> ATCC#15442  | <i>Serratia marcescens</i> ATCC#493D1       |
| <i>Pseudomonas cepacia</i> ATCC#25608     | <i>Shigella flexneri</i> Type II ATCC#25875 |
|   | <i>Klebsiella</i> sp. ATCC#8308             |

**PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS.**

**DANGER:** Causes eye damage and severe skin irritation. Do not get loose powder in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Do not open packets; place directly into bucket. Avoid breathing sprayed mist.

**STATEMENT OF PRACTICAL TREATMENT:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of water, egg whites, or gastric solution. Call a physician immediately. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**STORAGE AND DISPOSAL**

**STORAGE:** Store in cool dry place. Do not handle packets with wet hands. Do not remove packets before use.

**DISPOSAL:** Do not reuse container. Wrap container and place in trash collection.

**For Sale to, Use and Storage by Maintenance, Housekeeping and Service Personnel Only.**

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
  - a. Add the phrase "EPA Registration No. 44868-3."
  - b. The word: Active Ingredient should be singular.
  - c. Revise the referral statement to read:  
See additional precautionary statements on side panel.
  - d. Delete the statement: GENERAL CLASSIFICATION
  - e. Delete the number 5185-175-44868 from the label. This is not your registration number.
