# AQUA CHLOR

**"FOR SWIMMING POOL CHLORINATION AND SANITIZING."**

ACTIVE INGREDIENT  
SODIUM HYPOCHLORITE 12.5%  
INERT INGREDIENTS 87.5%

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

**FIRST AID:** If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention. If swallowed, drink large quantities of milk, or gelatin solution or, if these are not available, drink large quantities of water. Do NOT give vinegar or other acids. Do NOT induce vomiting. Get prompt medical attention.

See additional precautions on side panel

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Corrosive. May cause severe skin irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Treated effluent may not be discharged into lakes, streams, ponds or public waters without a valid discharge permit. For guidance, contact the regional office of the Environmental Protection Agency.

**PHYSICAL AND CHEMICAL HAZARDS:**  
**STRONG OXIDIZING AGENT:** Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to eyes, lungs and mucous membranes.

## DIRECTIONS FOR USE GENERAL CLASSIFICATION

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

**DIRECTIONS FOR SWIMMING POOL CHLORINATION**  
For a new pool or for spring start-up, 5 parts per million (ppm) available chlorine solution (1.25 oz. of sodium hypochlorite solution) for each 3000 gallons of water. For regular maintenance, 1.0 ppm available chlorine by weight.

**For Pool Maintenance:**  
A. Adjust pool water pH to 7.2-7.6. A pH of 7.2-7.6 will allow chlorine to be most effective. B. Add manually or by a feeder system this product to the pool water. Maintain an available chlorine level of 1.0 ppm. Do not allow the available chlorine level to fall below 0.5 ppm. If the available chlorine level falls below 0.5 ppm, add 1.0 ppm available chlorine by weight. Do not allow the available chlorine level to fall below 1.0 ppm. Use a DPD chlorine test kit to determine the available chlorine level. For more information, use test kit to make certain the proper amount of product is added.

### DIRECTIONS FOR DISINFECTION OF POTABLE WATER FOR HOME WELL WATER SYSTEMS

Dilute this sodium hypochlorite solution to 1 part per million (ppm) available chlorine solution in 10 parts softened water. Mix and use for disinfection of well and water line thoroughly and begin feeding of solution with a hypochlorinator, metering pump, etc. Maintain a free available chlorine residual of at least 2 ppm and no more than 2.6 ppm throughout the distribution system as determined by a DPD chlorine test kit. Bacteriological sampling must be conducted at a frequency to meet the requirements of the National Interim Primary Drinking Water Regulations. Check water frequently with a DPD chlorine test kit.

\*Contact your local Health Department for further details.  
**DIRECTIONS FOR SANITIZING FOOD PROCESSING OR DAIRY EQUIPMENT**

Clean equipment in the normal manner. Then use 1 part per million (ppm) available chlorine solution with this sodium hypochlorite solution containing 200 ppm available chlorine. Maintain contact with disinfectant for an amount of time as follows: 10 minutes with water after treatment with sodium hypochlorite solution. Do not wash overnight. Addition of one fluid ounce (2.083 g) of this sodium hypochlorite solution to 100 gallons of water will provide approximately 200 ppm available chlorine. **NOTE:** This product degrades through use. For best results, use the product as necessary to obtain the required level of available chlorine.

**STORAGE AND DISPOSAL:** Store in original container away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and either return to manufacturer or discard by placing in trash collection or burying in an approved landfill. Product or residue that cannot be used, should be diluted with water and disposed of in a sanitary sewer. Do not contaminate food or feed by storage or disposal. **CAUTION:** Do not use in equipment.
