CAUTION

See back panel for additional cautions.

May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should also be avoided. Wash thoroughly with soap and warm water after handling. Should poisoning occur, get prompt medical aid. Remove pets and cover fish bowls before spraying. Avoid contamination of food, utensils and food preparation areas.

NOTE TO PHYSICIAN:
 Atropine sulfate is antidotal.

ROACH and ANT SPRAY is a highly effective new formulation which provides rapid kill of crawling insects listed below, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides

- | | |
|---|-----------------|
| Ants | Brown dog ticks |
| Fleas | Millipedes |
| Roaches | Sowbugs |
| Spiders | Scorpions |
| Saw-toothed grain beetles (exposed stage) | Clover Mites |
| Earwigs | Silverfish |
| | Crickets |

In addition to rapid kill ROACH and ANT SPRAY stays on treated surfaces and kills insects for up to two weeks after the spray deposit has dried.

HOW TO USE: ROACH and SPRAY is ready to use undiluted as it comes from the can, and may be applied with either power-operated or hand sprayers. Apply as a coarse spray to infested surfaces until wet, moving the spray stream rapidly enough to prevent excessive wetting of surfaces and waste of material. Direct spray away from people, plants and pets.

RESTRICTIONS: Do not apply to rugs, carpets, draperies, wallpaper, or similar materials that may be stained. Avoid excessive wetting of plastic, rubber and asphalt surfaces such as tiles and floor coverings. Do not allow the small, finger-operated, plastic attachment type sprayer to remain in ROACH and ANT SPRAY solution for extended periods as the plastic sprayer may be damaged.

OUTDOOR USE:

ANTS, CLOVER MITES, CRICKETS, EARWIGS, FLEAS, MILLIPEDES, SOWBUGS, AND BROWN DOG TICKS: Spray infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, patios, or other places where insects may enter. For ants, spray hills and runways. Repeat as necessary. Do not spray vegetation.

INDOOR USE:

ANTS, COCKROACHES, CRICKETS, SILVERFISH, SPIDERS, SCORPIONS, WATERBUGS: Spray into cracks, crevices and around baseboards. Apply behind and beneath cabinets, refrigerators, sinks, stoves, and in and around waste containers. Repeat as needed. Do not spray foodstuffs or house plants. For ants, spray trails and places where ants enter premises. Do not allow children to contact treated areas until surfaces are thoroughly dry.

BROWN DOG TICKS: Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks, and local areas of floors. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. Do not spray animals.

DIRECTIONS FOR USE IN FOOD HANDLING ESTABLISHMENTS

USE IN FOOD HANDLING ESTABLISHMENTS: Places other than private residences in which exposed food is held, processed, prepared or served. **FOOD AREAS - APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY.** Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is served and facility is in operation) also would be considered a food area.

Apply in small amounts directly into cracks and crevices using equipment capable of delivering a pin stream in points between different elements of structure, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases, conduits, motor housing, junction or switch boxes, where Roaches, Ants and Waterbugs hide.

Prior to application de-energize electrical equipment. After application, allow for oil to evaporate before starting motors or placing switches in "on" position.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

SERVING AREAS: Facilities where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held.

Apply as a spot treatment to selective surfaces such as baseboards, elements of construction into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or food are exposed.)

NON-FOOD AREAS: Includes garbage rooms, lavatories, floor drain sewers), entries and vestibules, offices, locker rooms, machine rooms, laundry rooms, garages, mop closets and storage (after canning or bottling). Apply to baseboards areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pellets and similar areas where insects hide or through which they may enter.

DO NOT APPLY AS A SPACE SPRAY.
WARNING - FLAMMABLE! KEEP AWAY FROM HEAT OR OPEN FLAME! DO NOT SMOKE WHILE SPRAYING.

DO NOT REUSE EMPTY CONTAINER. DESTROY BY PERFORATING, CRUSHING, BURY OR DISCARD IN A SAFE PLACE.

ENVIRONMENTAL CAUTION

This product is toxic to birds and other wildlife. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on label.

LIMITED WARRANTY: BUYER ASSUMES ALL RISKS OF USE, STORAGE, HANDLING OF THIS MATERIAL NOT IN STRICT ACCORDANCE WITH DIRECTIONS GIVEN HEREWITH.

Not Reviewed. Registrant claims to be in accordance with the registration of Pesticide Product Guidance for Phase 2 Pesticides, Page 2.12, A five to most Change in Status.
