to EPA Letter Dated:

SEP 27 1982

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended for the Pesticide
Registered under EPA Reg. No.

43351-9

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER

Keep out of reach of children. Corrosive. May be fatal if swallowed. Causes severe eye damage and severe skin irritation, especially on broken skin. Do not get in eyes, on skin, on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with a NPDES permit. For guidance contact your Regional office of the Environmental Protection Agency.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. If plastic, do not reuse empty container.

DISPOSAL: Pesticide or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Triple rinse (or equivalent) all containers and, for metal containers, offer for recycling or reconditioning (for plastic containers dispose in an incinerator), or dispose in landfill approved for pesticide containers or bury in a safe place. Consult federal state or local disposal authorities for approved alternative procedures.

**CHRIS TEX CHEMICAL, INC.
Algae Control**

ACTIVE INGREDIENTS:

n-Alkyl (50% C₁₄, 40% C₁₂, 10% C₁₆)
dimethyl benzyl ammonium chloride 10%

INERT INGREDIENTS 90%
TOTAL 100%

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT

SKIN AND EYES:

In case of contact, immediately flush eyes with plenty of water at least 15 minutes; call a physician immediately. Wash skin thoroughly with soap and water. Remove and launder contaminated clothing before rewearing.

INGESTION:

If swallowed, and victim is conscious, give two glasses of water to drink and call a physician immediately.

NOTE TO PHYSICIAN. Acute effects may include mucosal damage, severe laryngeal edema, and shock associated with corrosive agents. Alcohol can increase toxic effects. Delayed effects may include life-threatening respiratory paralysis and convulsions.

EPA Est. No. 43351-NC-1

EPA Reg. No. _____

NET CONTENTS _____ GALLONS

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. In freshly filled pools or pools showing no visible algae growth add one gallon Algae Control per 50,000 gallons of water to prevent algae growth.
2. If algae growth is observed, add one gallon Algae Control for each 20,000 gallons of water to kill and control those algae species most commonly found in swimming pools. When existing growth is dead, clean the pool, drain and refill if necessary, and add one gallon Algae Control per 50,000 gallons of water. If visible algae are still present or reappear, repeat this treatment procedure.
3. If the pool water treated as in (1) or (2) above is recycled, add one gallon of Algae Control per 50,000 gallons of water every five to seven days to maintain between two and five parts per million of active ingredient. See serviceman for test kit.
4. If the pool water treated as in (1) or (2) above is not recycled or not filtered it should be tested periodically to determine the active ingredient content. When necessary, one gallon Algae Control per 50,000 gallons of water should be added to maintain two to five parts per million of active ingredient.

Effective against green algae (*Ankistrodesmus falcatus*, *Chlorella pyrenoidosa*) and blue-green algae (*Calothrix parietina*, *Nostoc* sp., *Oscillatoria* sp. and *Phormidium* sp.).

NOTE:

For maximum effectiveness distribute Algae Control dosage around pool edges or near pump where it can mix uniformly into the circulating water. Allow adequate time for thorough mixing before reentering pool (at least ten minutes). Clean pool of debris prior to treatment. **DO NOT** mix Algae Control with other chemicals; add directly to pool water.

Algae Control may be used in all sizes and types of pools and is compatible with most waters and chemicals normally used in swimming pools. Does not require special equipment.

requiring special handling" in the Federal Register Vol. 46, No. 41, Tuesday, March 23, 1981, pp. 10044-10045, "Classification of Pesticide Labels for Special Handling," for guidance.

Revise the label to reflect the above information.

Do not label or re-label containers unless severe eye damage and severe skin irritation are listed as hazards.

Do not label

Do not label or re-label containers unless severe eye damage and severe skin irritation are listed as hazards.

Correct the pesticide name to: Swimming Pool Algaecide.

REGISTRATION

- f. Include the following statement below your product name: (center panel)

A Swimming Pool Algaecide

- g. Revise the Disposal Statement of the Storage and Disposal Section to read:

PESTICIDE DISPOSAL

Pesticide, spray mixture, or rinse water that cannot be used according to label instructions must be disposed of according to Federal or approved state procedures under Subtitle C of the Resource Conservation and Recovery Act.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by incineration if allowed by state and local authorities.

- 3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
