## ALL STAR ROACH (WATERBUG - PALMETTO BUG) ANT AND SILVERFISH KILLER

### SUPPLEMENTARY DIRECTIONS FOR USE IN FOOD HANDLING ESTABLISHMENTS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ACTIVE INGREDIENT:	ORTHOBORIC ACID	99%
INERT INGREDIENT:	SYNTHETIC CALCIUM SILICATE	1%

ALL STAR POWDER may be used in Federally inspected meat and poultry handling establishments, in inedible product areas only.

### CAUTION

#### KEEP OUT OF THE REACH OF CHILDREN

Do not apply where children are likely to come in contact with treated surfaces. Do not contaminate food, food containers, or cooking utensils.

#### 12 MONTH MONEY—BACK GUARANTEE:

Anytime within a year after application, if you are not pleased in every way with your results, return the container directly to our address, with proof of purchase for full refund.

FOOD HANDLING ESTABLISHMENTS are defined as places other than private residences in which exposed food is held, processed, prepared or served.

FOLLOW DIRECTIONS ON BASIC CONTAINER LABEL FOR NON-FOOD AREAS, BUT IN ADDITION:

#### FOOD AREAS APPLICATION DIRECTIONS:

Applications of this product in the food areas of food handling establishments other than as a crack and crevice treatment are not permitted.

Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas, when food is exposed and facility is in operation also would be considered a food area.

Using a catsup or mustard-type squeeze bottle (with 1/4" of tip cut off for easier flow), or a bulb duster; apply in small amounts directly into cracks and crevices in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases and sub-cabinet voids and hollow spaces where cockroaches (waterbugs-palmetto bugs) ants and silverfish hide. To obtain entry to subcabinet voids and other hollow spaces, simply drill 1/4" hole into the voids and insert squeeze bottle nozzle. If drilled in an inconspicuous place, there will be no need to close the aperture after dusting.

#### FOOD SERVING AREAS APPLICATION DIRECTIONS:

Applications of this product in the food areas of food handling establishments other than as a crack and crevice treatment are not permitted.

For application in serving areas; facilities where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held: Apply as a spot treatment to selective surfaces such as baseboards, under elements of construction, into cracks and crevices, subcabinet voids and other hollow spaces. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or when foods are exposed)

#### NON-FOOD AREAS APPLICATION DIRECTIONS:

For application in facilities such as garbage rooms, lavatories, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling); use a catsup or mustard-type squeeze bottle or a bulb duster to apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.
