

ACTIVE INGREDIENT

Poly[oxyethylene (dimethyliminio) ethylene-
(dimethyliminio) ethylene dichloride] 10.0%

INERT INGREDIENT 90.0%

This product contains 0.85 lb. of active ingredient per gallon and weighs 8.49 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

Notal

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TSW MICROBICIDE is used to control the growth of algae in exterior spas and hot tubs. For maximum effectiveness, spas and hot tubs containing heavy growth of algae should be cleaned prior to using TSW MICROBICIDE.

For spas and hot tubs having just visible algae growth, add an initial dose of 75 to 116 fluid ounces of TSW MICROBICIDE per 1,000 gallons.

For treatment of a freshly cleaned and filled spa or hot tub, add initially 41 to 75 fluid ounces of TSW MICROBICIDE per 1,000 gallons.

To maintain spas and hot tubs free of visible algae growth, subsequent additions of 13.6 to 27 fluid ounces of TSW MICROBICIDE should be made every 5 to 7 days after the initial treatment.

TSW MICROBICIDE is compatible with those chemicals normally used to treat spas and hot tubs and effective at both acid and alkaline pH. TSW MICROBICIDE can be used in spas and hot tubs treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix TSW MICROBICIDE with concentrated dry or liquid chlorine products.

STORAGE & DISPOSAL. Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. The container must be triple rinsed (or equivalent) and offered for recycling, reconditioning, or disposal in an approved landfill or buried in a safe place. Rinsate that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.
