CAUTION: KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

Hazards to Humans: Avoid contact with eyes or open wounds.

ENVIRONMENTAL HAZARDS

Do not apply directly to treated fish, hot drinking water, swimming, or drinking water supply tank.

STORAGE AND DISPOSAL

Storage: Close containers of this product tightly after use.

Disposal: Do not re-use empty packaging material. Dispose of material according to local, state, or federal regulations.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply 4 to 20 pounds granules/acre with aerial or ground equipment. Use the higher rates in heavily polluted water, where populations are high, when larvae are nearly grown or in difficult water, and when aquatic covering vegetation is dense. Most treatments require no more than 4 to 6 pounds/acre. Apply only when mosquitoes are larvae, not pupae.

Conditions:

Rates (pounds/acre):

Woodland pools, flood water, light to moderate populations, ricefields, brackish water, pastures

4-7

Moderate pollution, non-organic content, ditches, moderate populations, salt marshes, mangrove swamps

7-10

Allow 14 days for control. Under certain conditions, such as sewage, water, high organic content, heavy vegetation, or high populations and catch basins, the above application rates may be doubled.
