Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For use on houseflies. Aeroxon Window Fly Killer ("Sticker") is not approved for use on other types of flies. No release of insecticides or fumes into the air. The Sticker is a decorative window Sticker treated with a bait to control house flies. It is to be placed on the inside of a window. Houseflies are attracted to the surface where they come into contact with the active ingredient and are killed from ingesting the active ingredient. The dead houseflies do not stick to the surface. Dead flies should be removed by using a hand brush and disposing the flies in household garbage or by vacuum cleaning.

Do not allow children or pets to play with the Sticker. Place the Sticker out of reach of children. Remove the white front protective paper. Peel off the decorative window Sticker from the backing sheet. Place one Sticker per room in a window with the greatest sun exposure. For high infestations or quicker results, place a Sticker in each window within the room. Place the Sticker high on the inside of the windowpane. Once applied, keep the Sticker dry. Do not wipe the Sticker! Protect the Sticker against condensation moisture. Do not use on skylights.

Keep unused Sticker dry and frost-free in the original packaging. Keep outer container until the last Sticker is disposed. For maximum efficacy, replace Sticker every six months.

Storage and Disposal

Storage: Store in original containers in cool, dry place. Store out of reach of children.

Disposal: Securely wrap original container in several layers of newspaper and discard in trash.
