MARC 88

CONCENTRATED SWIMMING POOL ALGAEICIDE

KEEPS POOL WATER CLEAN AND FREE OF VISIBLE ALGAE

CONTROLS ALGAE SLIMES

Active Ingredients

• Aryl 88% C ₁₂ 30% C ₁₂ 5% C ₁₂	5%
• Dimethyl benzyl ammonium chloride	5%
• Aryl 88% C ₁₂ 32% C ₁₂ dimethyl	5%
• dimethyl ammonium chloride	5%
Inert Ingredients	80%
	100%

EPA Registration No. 12204-9
EPA Establishment No. 12204 NB 1

KEEP OUT OF REACH OF CHILDREN
DANGER

See Left Panel for Additional Precautionary Statements

STORAGE AND DISPOSAL

1. CONTAINER DISPOSAL
Triple rinse for equivalent of recycling, reconditioning or approved landfill or bury in a safe or plastic container or more. May also be recycled and reconditioning. Plastic containers 30 gallons may also be recycled approved incinerator.

2. PESTICIDE DISPOSAL
Pesticide spray mixture or residue that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

3. CONTAINER DISPOSAL
Triple rinse for equivalent of recycling, reconditioning or approved landfill or bury in a safe or plastic container or more. May also be recycled and reconditioning. Plastic containers 30 gallons may also be recycled approved incinerator.

4. GENERAL
Consult Federal state or authority for approved alternative.

FEATURES

When MARC 88 is used as directed it will kill and prevent development of Chlorococcoid algae (green), Phormidium (black) algae, Phormidium (black) algae, Lyngbya versicolor (blue green) and other swimming pool algae.

MARC 88 is compatible with most commonly used swimming pool chemicals but should not be mixed with soap or other cleaners or be mixed with other water treating chemicals. MARC 88 works best when added by itself directly to pool water. MARC 88 at use dilution is non-corrosive to inanimate surfaces.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMAN AND DOMESTIC ANIMALS

DANGER

Corrosive. Do not get in eyes, on skin or on clothing. Causes severe eye and skin damage. Harmful or fatal if swallowed. Wear goggles or face shield and rubber gloves when handling this product. Wipe up and wash contaminated surfaces. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

1. FIRST AID: Skin or Eyes: In case of contact immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician.

2. INGESTION: If swallowed drink milk or water, saline solution, or if these are not available large quantities of water. Avoid alcohol. Call a physician.

NOTE TO PHYSICIAN: Probable mucous membrane damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

FISH AND WILDLIFE PRECAUTIONS: This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Apply this product only as specified on the label.

BEST DOCUMENT AVAILABLE

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

**WEST C-103
MICROBIOCID**

It is a violation of Federal law to use this product inconsistent with its labeling.

WEST C-103 is used to control algae, bacteria, and fungi in commercial and industrial water cooling towers. Towers must be cleaned to remove algal growth, microbiological deposits. An initial slug addition of 1.5 to 3.0 fluid ounces per 1000 gallons of water is recommended. Repeat initial control is evident.

Subsequent slug additions of 0.5 to 3.0 fluid ounces of 1000 gallons of water should be employed every 1 to 5 days. The frequency of addition depends upon the relative amount of the severity of the microbiological problem. Slug addition in the sump of water cooling towers.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide, spray mixture, or concentrate should not be used or chemically reprocessed. Should be disposed of in accordance with local, State, or Federal regulations for pesticides or buried in a safe place away from water.

CONTAINER DISPOSAL: Containers under 30 gallons should not be reused but should be triple rinsed and disposed of in a landfill approved for pesticide containers or buried in a landfill. Containers over 30-gallon capacity should be resealed and triple rinsed (or equivalent) and offered for recycling, reuse, or disposal in an approved landfill, or buried in a landfill.

GENERAL: Consult Federal, State, or Local disposal regulations for approved alternative procedures.

ACTIVE INGREDIENTS:	
Disodium cyanodithioimidocarbonate	14.7%
Potassium N-methyldithiocarbamate	20.3%
INERT INGREDIENTS	65.0%
TOTAL	100.0%

This product contains 3.57 lbs. of active ingredients per gallon and weighs 10.2 lbs. per gallon.

KEEP OUT OF REACH OF CHILDREN

WARNING

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING: Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, give patient doses of powdered charcoal immediately or all he can swallow of raw egg white, milk, gruel, or flour and water. Then induce vomiting with salt, soap, or mustard in warm water. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with an NPDES permit. For guidance contact your Regional Office of the EPA.

WEST C-103 MICROBIOCIDAL

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

WEST C-103 is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers. Prior to its use, systems must be cleaned to remove algal growth, microbiological slime, and other deposits. An initial slug addition of 1.5 to 3.0 fluid ounces of WEST C-103 per 1000 gallons of water is recommended. Repeat initial dosage until control is evident.

Subsequent slug additions of 0.5 to 3.0 fluid ounces of WEST C-103 per 1000 gallons of water should be employed every 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide, spray mixture, or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

CONTAINER DISPOSAL: Containers under 30 gallon capacity must not be reused but should be triple rinsed and disposed of in an incinerator or landfill approved for pesticide containers or buried in a safe place. Containers over 30-gallon capacity should be resealed and offered for reconditioning or triple rinsed (or equivalent) and offered for recycling, reconditioning, or disposal in an approved landfill, or buried in a safe place.

GENERAL: Consult Federal, State, or Local disposal authorities for approved alternative procedures.
