PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves and use clean, dry utensils when handling. Irritating to nose and throat. Aboid breathing dust or fumes. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Use only clean, dry utensils. Mix only with water. Do not add this product to any dispensing device containing remnants of any other product. Contamination with moisture, dirt, organic matter, or other chemicals (including pool chemicals) may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. WILL BURN with evolution of chlorine and equally toxic gases. Avoid any contact with flaming or burning material, such as a lighted cigarette.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional offic of the EPA.

STORAGE AND DISPOSAL

Keep product dry in a tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or flame. Do not reuse empty cintainer. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in a trash collection or dispose in approved landfill area, or bury in a safe place. IN CASE OF CONTAMINATION OR DECOMPOSITION, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volume of water, avoid breathing fumes. Dispose of contaminated materias in an approved landfill of bury in a safe.

DIRECTIONS FOR POOL USE

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling.

Scatter directly over surface of pool. Each ounce of product will provide approximately 0.4ppm of available chlorine in 10,000 gallons of water.

REGULAR USE

Add 3 or 4 oz. for each 10,000 gallons of water every other day,or as needed, to maintain your chlorine residual from 1.0 to3.0 ppm. Frequency of application will depend upon number of people swimming,water temperatures and other conditions. Test for chlorine residual daily.

ADDITIONAL IMPORTANT POOL CARE RECOMMENDATIONS pH - Maintaining pH in the ideal range of 7.2 to 7.6 is EXTREMELY important for full benefit of your chlorine and swimming comfort. Test for pH once a day with a good quality test kit. Adjust your pH to ideal range immediately. SUPERCHLORINATION - Keep your water sparkling clear by adding 11 Oz. of this product per 10,000 gallons of water, at least once a week, especially during excessive heat when bathing loads are high, when water becomes dull looking or hazy, when there is a "chlorine" like smell or excessive eye irritation, or after heavy rains.

Before swimming, allow pool to stand until the chlorine residual drops to 3.0 ppm.

NOTICE

Neither Swimchem Inc., nor the seller, makes any warranty expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this product which is contrary to label.
