US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (75-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

43521-4

DATE OF ISSUANCE

28 SEP 1988

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Swim Brite Tab Brite 1

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Swinchem, Inc.
1539 North Green Bay Road
Racine, WI 53406

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 43521-4" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 3(c). Your release of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves and only thoroughly clean, dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before use.

PHYSICAL AND CHEMICAL HAZARDS

DANGER, STRONG OXIDIZING AGENT: Use only clean, dry utensils. Mix only with water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flammable or burning material, such as a lighted cigarette. Do not use these tablets in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion. Do not permit tablets to contact plastic pool linings or metal objects. Do not throw tablets directly into pool.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional office of the EPA.

STORAGE AND DISPOSAL

Keep product dry in a tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in a trash collection or dispose in approved landfill area. IN CASE OF CONTAMINATION OR DECOMPOSITION, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volume of water, avoid breathing fumes. Dispose of contaminated materials in an approved landfill.

DIRECTIONS FOR POOL USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. These concentrated pool chlorinating 1" tablets are designed to dissolve slowly (1-3 days) providing a steady source of available chlorine to control growth of algae and kill many harmful bacteria.

FOR BEST RESULTS: Use a floating dispenser or place these tablets in the skimmer. Do not throw these tablets directly into the pool. Run pump and filter until tablets are dissolved.

STARTUP:

1. Adjust pH to 7.2-7.4 with pH plus or pH minus.
2. Superchlorinate with a calcium hypochlorite shock treatment to obtain a 1-3 ppm chlorine residual. Follow label directions on shock container.
3. The next day stabilize your pool using a stabilizer and conditioner. Follow directions on the stabilizer container.

ROUTINE CARE: Add four 1/2 ounce tablets for each 10,000 gallons of water every week, or as needed, to maintain chlorine residual at 1-3 ppm. Run pump and filter until tablets are dissolved. Maintain pH between 7.2-7.6, total alkalinity 90-125 ppm and calcium hardness above 200 ppm. Test with a reliable test kit. Make necessary adjustments with the appropriate pool care product(s). Superchlorinate weekly to burn out organic material and to keep water sparkling clear.

IN CASE OF: Algae, colored water, unpleasant odors, burning eyes, excess bather load, heavy rains and winds, or high temperatures, shock treat your pool. Follow label directions. An alternate method is to add 28 small 1" tablets in the skimmer for each 10,000 gallons of water. Run pump and filter until tablets are dissolved. If algae are visible scrub pool surfaces and vacuum. Repeat treatment the following day if necessary. Do not enter pool until chlorine residual is 1-3 ppm.

NOTICE

Neither Swimchem Inc. nor the seller makes any warranty expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this product which is contrary to label.
