NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT	
	TPT-6	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

CH₂O, Inc.
 P.O. Box 1190
 Olympia, WA 98507

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 43553-26."
 - b. The statement Active Ingredients should be singular.
 - c. Delete the statement: General Classification.
 - d. Revise referral statement to read:

See side panel for additional precautionary statements.

SIGNATURE OF APPROVING OFFICIAL	DATE
---------------------------------	------

- e. Revise the statement:

Practical Treatment (FIRST AID)

to read:

Statement of Practical Treatment.

- f. Revise the Environmental Hazard statement to read:

Environmental Hazards

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

- g. Revise the statement:

May be fatal if swallowed.

to read:

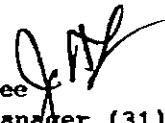

Harmful or fatal if swallowed.

- h. The Storage and Disposal statements are unacceptable for the container sizes you propose. Refer to PR Notice 83-3 for acceptable statements.
- i. The Agency questions your claims that sulfate-reducing and heterotrophic bacteria are a concern in cooling towers.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

4. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

John H. Lee
Product Manager (31)
Disinfectants Branch
Registration Division (TS-767C)

Enclosures

TEI-6 is recommended to control the growth of green algae (Chlorella, Scenedesmus), blue-green algae (Phormidium, Anabaena), anaerobic sulfate-reducing bacteria (Desulfovibrio) and aerobic heterotrophic bacteria (Bacillus sp., Pseudomonas sp.) in recirculating water cooling systems and evaporative condensers.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

THIS PRODUCT may be metered, pumped, gravity fed or poured from a suitable container into the treatment system. Centrifugal, injection, piston or diaphragm pumps are satisfactory. Algicide feed pumps, meters and feed lines may be stainless steel, neoprene, glass, plastic or unpigmented fiberglass.

RECIRCULATING WATER COOLING TOWERS:

INITIAL TREATMENTS: To a visually clean system or when algae or slime is first visible to sump water near pump suction, add 10-20 ounces of TEI-6 for each 1,000 gallons of water (75-150 ppm) in the system. Repeat initial dose at day intervals until algae and slime control is evident. Badly fouled systems should be cleaned before initiating treatment.

MAINTENANCE TREATMENTS: The frequency at which additional dosages must be added to control slime and algal growth can only be determined by experience, since each system will vary in water composition and in amounts and types of microorganisms present.

A treatment of this algicide once or twice a month or when algae or slime first appears is usually sufficient to control growth of green algae in cooling towers. To control slime bacteria, a dose may be necessary once a week or once every two weeks. Use 7-14 ounces per 1,000 gallons of water (50-100 ppm) for subsequent dosages. More frequent treatments may be required in some towers.

FEEDING: THIS PRODUCT may be fed directly from the drum or diluted with water and fed by any suitable feed system. Dose directly into the sump or any other convenient location providing good distribution of treatment.

TEI-6

Controls algae slime growth on recirculating water cooling towers and evaporative condensers.

ACTIVE INGREDIENTS:

- Alkyl (C₁₄, 58%; C₁₆, 28%; C₁₂, 14%) dimethyl benzyl ammonium chloride 50%
- INERT INGREDIENTS 50%
- TOTAL INGREDIENTS 100%

STORAGE AND DISPOSAL
closed, original container in a safe place and away from food.

Do not reuse empty container. Discard in trash.

PRECAUTIONARY HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Highly corrosive. Causes skin irritation. Fatal if swallowed. Do not wear clothing. Wear goggles or face shield when handling. Remove and wash before reuse.

ENVIRONMENTAL HAZARDS: Harmful to fish. Do not discharge into public water unless in accordance with Permit. For guidance, contact EPA.

PRACTICAL TREATMENT: Avoid contact, immediately flush eyes with water for at least 15 minutes. Consult physician. Remove and wash before reuse.

If swallowed, drink promptly with milk, egg whites, gelatin solution or water. Do not induce vomiting. Call a physician immediately.

NOTE TO PHYSICIAN: Product may contraindicate the use of beta-blockers against circulatory shock as beta-blockers may be needed. If persistent, controlled by cautious intravenous acting barbiturate drug.

ACCEPTED with COMMENTS to EPA Letter 10-1-86

APR 29 1986

Product of CH₂O, Inc. is a pesticide registered under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, but the pesticide is not registered under EPA Reg. No. 43553-26.
