

UTILITY is an industrial cleaner which disinfects as it cleans. It is especially designed for schools, non-medical institutions and industry. A single application removes moderate amounts of dirt and grime, disinfects and is virucidal. When used as directed, the hard surface disinfecting action of **UTILITY** will reduce the hazard of cross-contamination. **UTILITY** is an extremely effective one-step sanitizer for non-food contact surfaces. It cleans and sanitizes in waters up to 550 ppm hardness. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

When used as directed **UTILITY** will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors. Also, this product will inhibit the growth of mold and mildew and their odors when used as directed.

Precautionary Statements

Hazardous to Humans and Domestic Animals

DANGER

Keep out of reach of children. Causes eyes and skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

Storage and Disposal

Do not contaminate water, food, or feed by storage/disposal.
Do not store on side.
Avoid creasing or impacting of side walls.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of empty pesticide spray or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Do not reuse empty bottle. Wrap container and put in trash.

UTILITY

Disinfectant - Cleaner - Sanitizer - Fungicide - Mildewstat
Virucide - Deodorizer with Organic Soil Tolerance for
Schools, Industry and Non-Medical Institutions

Active Ingredient

Didecyl dimethyl ammonium chloride

2.5%

Inert Ingredients

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

DIRECTIONS FOR USE — GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

UTILITY is a proven one-step cleaner, disinfectant, sanitizer, fungicide, mildewstat, virucide in the presence of moderate amounts of organic soil.

Apply **UTILITY** to walls, floors, and other hard (non-porous) surfaces such as tables, chairs, countertops, sinks and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

Disinfection — To disinfect hard, non-porous surfaces, add 2 1/2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use level, **UTILITY** is also virucidal and fungicidal.

Sanitizing — To sanitize porous and non-porous non-food contact surfaces, add 3/4 oz. per gallon of water.

2.5 oz. per gallon use level. The broad spectrum of **UTILITY** has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use Dilution test:

Escherichia coli, *Salmonella choleraesuis*, *Staphylococcus aureus*

AOAC Fungicidal Test

UTILITY is effective against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, etc.

Mold and Mildew Control

At 2 1/2 oz. per gallon, **UTILITY** will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

Virucidal Performance

At 2 oz. per gallon use level, **UTILITY** was evaluated in the presence of 10% serum and found to be effective against the following viruses: Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Varicella (representative of the pox viruses), and influenza A2 (the Hong Kong Flu) and the London Flu 2 virus on approximate environmental surfaces.

Sanitizing Non Food Contact Surfaces (such as floors, walls, tables, etc.). At 3/4 oz. per gallon use level, 30 sec. and contact time, **UTILITY** is an effective sanitizing agent in waters of up to 550 ppm hardness against *Staphylococcus aureus* and *Klebsiella pneumoniae* in the presence of 5% serum on hard porous and non-porous, non-metallic surfaces.
