{Back Panel}

Temporarily repels gnats, mosquitoes and biting flies. Contains a grooming agent to ease combing and brushing to remove dead fleas, ticks and lice.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use only in a well ventilated area. Shake well before using. When used indoors as a space spray remove birds and cover aquariums before spraying.

Do not use on puppies or kittens under 12 weeks of age. Consult a veterinarian before using this product on debilitated, medicated, aged, pregnant or nursing animals.

Cover animal's eyes with hand and with a firm fast stroke, to get a proper spray mist, spray head, ears and chest until damp. Spray **With** fingertips then rub onto animal's **into** face around mouth, nose and eyes. Then Spray neck, middle and hindquarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs and cats, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Do not repeat treatment for 3 to 5 days.

Puppies and Kittens: Spray only along back or on your fingertips and rub into coat.

Pet Sleeping Quarters: Thoroughly spray infested areas, pet beds, resting quarters, around baseboards, windows, door frames, wall cracks and local areas of floors. Repeat as needed. Put fresh **The bedding in animal's quarters following treatment. Concurrent treatment of animals is recommended should be sprayed and then replaced with fresh bedding for best results.**

Horses and Ponies: To control stable flies, horse flies, deer flies and face flies, apply to face, neck, legs, flanks, topline and other body areas commonly attacked by these flies. Repeat treatment as needed.

To Control Spinose Ear Ticks and Ear Mites, apply 10 drops of this product to each ear making sure **so that it can** penetrates the wax down to surrounding tissues. Repeat treatment once or twice at 2-3 day intervals.

[Free Bonus Ear Cleaner Enclosed. Ear Care for Dogs and Cats. Helps to clean the ears, reduce ear odors and dry the ears.]

Two Simple Steps to Reduce Ear Problems:

- 1) First, use Ear Cleaner to clean and help reduce ear odors. [Ear Cleaner helps reduce ear odors.] Use two or three times a week [to keep the ears clean and reduce ear odors]. Use before and after bathing, swimming or hunting. Also available in 4 oz., 8 oz., 16 oz. and gallons. Fill the ear canal with Ear Lotion. Gently massage the base of the ears. Use facial tissue or cotton to clean the ears.
- 2) Next, use Drying Ear Creme and Flea & Tick Killer to keep the ears dry and control any ear mites or ear ticks present. Use after the ears are cleaned with Ear Cleaner. This unique liquid and dry phase crème will dry to a powder to help keep the ears dry and keep Ear Mites and Ear Ticks out of the ears. Also available in 1 oz. and 4 oz. size. To control ear ticks and ear mites, apply 10 drops of this product to each ear making sure **so that** it **can** penetrate the wax down to surrounding tissues. Repeat treatment one or twice at 2-3 day intervals.

The ears of dogs and cats are a frequent source of problems. The long ear canal (see diagram below) allows dirt and wax to build up.

[Diagram of Ear, Head, Ear Canal and Ear Drum]

The heavy drooping ear of some dogs closes off the opening of the ear canal. This prevents proper air circulation and results in a moist odorous ear.

Ear Mites: These are small parasites that **which** crawl in the ear canal of dogs and cats. They chew on the ear and cause scratching, head-shaking, pain and infection. A crusty brownish black material will occur in the ear when mites are present.

Storage: Store in original container in a cool, dry place (preferably locked) inaccessible to children and pets and away from heat or open flame. Protect from freezing. **Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency [or 1-800-CLEANUP] for disposal instructions. **Never place unused product down any indoor or outdoor drain. Do not reuse empty container. Securely wrap original container in several layers of newspaper and discard in trash collection.**

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Humans: Harmful if swallowed or inhaled. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Wash skin with soap and water after using. Avoid spraying food or foodstuffs. **Animals:** Avoid contact with animal's eyes. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

First Aid

If Swallowed	<ul style="list-style-type: none"> • <u>Immediately call a poison control center or doctor for treatment advice.</u> • <u>Have person sip a glass of water if able to swallow.</u> • <u>Do not induce vomiting unless told to do so by a poison control center or doctor.</u> • <u>Do not give anything by mouth to an unconscious person.</u>
If Inhaled	<ul style="list-style-type: none"> • <u>Move person to fresh air.</u> • <u>If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.</u> • <u>Call a poison control center or doctor for further treatment advice.</u>
If on Skin or Clothing	<ul style="list-style-type: none"> • <u>Take off contaminated clothing.</u> • <u>Immediately rinse skin with plenty of water for 15-20 minutes.</u> • <u>Call a poison control center or doctor for treatment advice.</u>
If in Eyes	<ul style="list-style-type: none"> • <u>Hold eye open and rinse slowly and gently with water for 15-20 minutes.</u> • <u>Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</u> • <u>Call a poison control center or doctor for treatment advice.</u>

Have the product container or label with you when calling a poison control center or doctor or going for treatment. [You may also call 1-800-755-7056 for emergency medical treatment advice.]

{Note: The first aid statements' grid format will be used if market label space allows; otherwise a paragraph format will be used.}

If Swallowed: Promptly drink one or two glasses of water and contact a physician or poison control center immediately. Give nothing by mouth to an unconscious person. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if

indicated. Contact a physician if needed. **If on Skin:** Immediately remove contaminated clothing and wash affected area with plenty of water. Contact a physician if irritation persists. Wash clothing prior to reuse. **If in Eyes:** Immediately flush eyes with plenty of water. Contact a physician if irritation persists.

Environmental Hazards

This product is toxic to aquatic organisms. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

[In case of questions or emergencies, call 800-755-7056.]
