Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 43576-12".
- b. In the Environmental Hazards section change the statement "Do not contaminate water by cleaning of equipment or disposal of wastes." to read "Do not contaminate water when disposing of equipment washwaters."
- c. In the Statement Of Practical Treatment, change the statement "Do not induce vomiting." to read "Do not induce vomiting because of aspiration hazard."

Signature of Approving Official:

Date:

Sept. 20, 1993

294

3. Submit one (1) copy of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

("

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Dilutions of this concentrate should be made shortly before use in the quantity needed for the individual application. Water dilutions should not be kept for future use.

TO CONTROL INSECTS ON ANIMALS

Sponge Bath or Dip: Dilute this concentrate at a rate of 1 fluid ounce in 23 fluid ounces of water (2 tablespoons of concentrate in 2-3/4 cups of water) or 5 fluid ounces (12 tablespoons) in 1 gallon of water. For rapid control of ticks, fleas and lice on cats and dogs, sponge solution on, thoroughly wetting skin, over entire animal or dip the animal. Do not rinse; allow solution to remain on animal. In cases of heavy tick infestations on long-haired cats or dogs, dilute 1 fluid ounce of concentrate in 11 fluid ounces of water (2 tablespoons of concentrate in 1 1/4 cups water) or 12 fluid ounces (24 tablespoons) of concentrate in one gallon of water.

Mist Spray: Dilute this concentrate at the rate of 7 fluid ounces in 1 gallon of water or 1 fluid ounce of concentrate in 18 fluid ounces of water. For rapid control of ticks, fleas and lice using a mist spray. To insure thorough coverage, part the fur by stroking against the lay of the hair as spray is applied. Spray ticks directly. Apply to moisten the fur lightly. To control spinose ear ticks and ear mites, syringe the ears with a few drops of this dilution so it can penetrate the wax down to the surrounding tissues. Repeat treatment once or twice at 2 to 3 day intervals as necessary. For temporary protection from mosquitoes, eye gnats, biting flies and chiggers, apply to cover the surface of the hair. Repeat treatment as necessary when insects are troublesome.

Ticks are only an occasional pest of cats. This product will control ticks on cats should they occur.

TO CONTROL INSECTS IN KENNELS AND ANIMAL QUARTERS

Dilute at the rate of 13 fluid ounces in 1 gallon of water or 2 fluid ounces in 18 fluid ounces of water. Remove pets before treating area and ventilate thoroughly before allowing them to reenter treated area. For rapid cleanout of fleas and ticks in kennels, apply this dilution in a good machine adjusted to deliver coarse droplets. Apply to the point of runoff with special attention to cracks and crevices and other insect hiding places. Bedding should be removed and sprayed thoroughly. To control flies, mosquitoes and gnats in kennels, apply this dilution in a good sprayer adjusted to deliver a fine mist. Use at the rate of approximately 1 ounce for 1,000 cubic feet of space. Fill the enclosed area with mist wherever practical. Keep doors and windows closed for 10 minutes or more after application. Do not remain in treated areas and ventilate after treatment is completed.

STORAGE: Store in original container in a cool, dry place inaccessible to children and pets and away from heat or direct sunlight. Do not reuse empty container. **DISPOSAL:** Wrap container in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Avoid contamination of feed and utensils by keeping them well covered while spraying the area. Remove pets, birds and cover fish aquaria before spraying.

Statement of Practical Treatment

If Swallowed: Do not induce vomiting. Contains petroleum distillates. Call a physician or poison control center immediately. **If Inhaled:** Remove affected person to fresh air. Apply artificial respiration if indicated. **If On Skin:** Remove contaminated clothing and wash skin with soap and water. Wash contaminated clothing before reuse. **If In Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists.

Environmental Hazards

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.
