PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists. If swallowed, do not induce vomiting. Call a physician at once.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying in food processing plants, wash all equipment, benches, shelving, etc., where exposed food will be handled, with an acceptable detergent solution and then rinse with potable water to remove all traces of contamination.

All food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use.

Remove pets, birds, and cover fish aquariums before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as directed on the label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL

Pesticides, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to applicable federal, state, or local procedures.

CONTAINER DISPOSAL

Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures.

FIGHTER BOMBER X-TRA FLY AND MOSQUITO INSECTICIDE

For use in Institutions, Restaurants
and Food Processing Plants.

Kills on contact exposed or accessible stages of:

Roaches	Wasps	Cheese Mites
Silverfish	Hornets	Carpet Beetles
Crickets	Sand Flies	Angoumois Grain Moth
Spiders	Mosquitoes	Confused Flour Beetle
Ants	Bedbugs	Saw Toothed Grain Beetle
Fleas	Meal Worms	Mediterranean Fruit Moth
Caddisflies	Meal Mites	Brown Dog Tick in Buildings
Flies	Grain Mites	Granary Weevil
Skippers	Rice Weevil	Red Flour Beetle
Gnats	Spider Beetles	Clothes Moths
		Houseflies and Small Flying Moths

ACTIVE INGREDIENTS:

Pyrethrins	100%
Piperonyl Butoxide, Technical*	0.1%
Petroleum Distillate	99.4%

*Equivalent to 0.4% of (butylcarbityl) (6-propylpiperonyl) ether and to 0.1% of related compounds.

KEEP OUT OF REACH OF CHILDREN CAUTION

HARMFUL IF SWALLOWED.

(See side panel for additional precautionary statements.)

FOR INDUSTRIAL, INSTITUTIONAL, AND COMMERCIAL USE ONLY

Manufactured by:

DAVIS SPECIALTY CHEMICALS, INC.

DIRECTIONS

SPACE SPRAY: For rapid control of houseflies, mosquitoes, sand flies, weeps and hornets: Close doors and windows. Use a hand sprayer or fog machine adjusted to deliver a fine mist. Direct spray into air, using 1 to 2 ounces per 1000 cubic feet of space. Keep the area closed for ten minutes, or longer if necessary.

SURFACE APPLICATION: To control roaches, silverfish, and other insects: Spray directly into locations where these insects may hide, such as under sinks, around plumbing, drains and in and under window frames. Repeat treatment as necessary.

Against ant infestations, treat shelves, cabinets and other places of entry, and treat nests liberally.

In controlling fleas and brown dog ticks in houses, direct spray into cracks, crevices, and under rugs, carpets and floors of infested areas. Animal quarters should be treated.

To control bedbugs effectively, apply liberally to top, bottom, seams and folds. Spray springs and frame, dividers, headboards, moldings, floors, closets and bedroom furniture. Repeat treatment as necessary.

For most effective control of clothes moths and carpet beetles, spray thoroughly and, if possible, at several hours in the day. Spray into closets, drawers and storage areas. Direct the liquid into cracks and crevices by holding the spray nozzle at least 3 feet away. Avoid the possibility of staining. Treat both sides of rug and carpet. Do not overspray products or overstuff furniture. Do not overspray products or overstuff furniture. Do not overspray products or overstuff furniture. Repeat treatments monthly unless the infestation is controlled.

To control infestations of granary weevil, rice weevil, and other insects: Spray thoroughly and, if possible, at several hours in the day. Spray into food storage areas. If infestation is severe, fumigation or other effective treatment should be used. Apply this spray thoroughly to all surfaces of food storage areas with particular attention to cracks, crevices, niches, and other hiding places.

FOG OR VAPOR SPRAY: To kill accessible or exposed insects (such as roaches, bedbugs, and carpet beetles) Apply using fogger or vaporizer. Fog the entire area with mist using 3 to 6 ounces per 1000 cubic feet.
