One Gallon

To control small flying moths and houseflies, flies, mosquitoes, gnats and  
flying moths (millers): Apply using a good space sprayer adjusted to deliver a  
fine mist. Close windows and doors and shut off ventilating systems. Direct  
spray toward upper portions of the enclosure, filling the atmosphere with mist.  
Use 2 to 3 ounces per 1000 cubic feet of space. For best results, keep area  
closed for at least 10 minutes. Vacate treated area and ventilate before reoccu-  
pying. Repeat treatment as necessary.

To control silverfish, crickets and house spiders, spray thoroughly into hiding  
places particularly in cracks, crevices, moist areas, around openings for plumb-  
ing or wiring, under sinks, cabinets, stoves, refrigerators, pallets. Spray insects  
directly whenever possible. Repeat treatment as necessary.

To control ants, spray trails, nests and points of entry. Spray directly on ants  
whenever possible. Repeat treatment as necessary.

Buyer assumes all risks of use, storage or handling of this material not in strict  
accordance with directions given herewith.
