NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 43602-20."
 - b. Since your data matrix does not give a dielectrical breakdown voltage, you must add the following to the use directions:

Do not use this product in or on electrical equipment due to the possibility of shock hazard.
3. Submit a storage stability data tested at 3-month intervals and at noted elevated temperatures.

SIGNATURE OF APPROVING OFFICIAL: *See P. 2* DATE: 3/22/89

4. Submit information on the container sizes that you are proposing to sell.

5. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes.

Do not apply directly to food. In commercial food handling facilities, stop or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying in food processing plants, wash all equipment, benches, shelving, etc., where exposed food will be handled, with potable water. All food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use.

Remove pets, birds, and cover fish aquariums before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as directed on the label.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewithin.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.

The ready-to-use concentrate may be dispersed through good mechanical, thermal or compressed air fogging or spraying equipment. If used in edible product areas of Federally inspected meat, poultry, shell egg grading and egg product establishments, it must be dispersed as an aerosol spray (no droplets over 50 microns in diameter and 80% less than 30 microns).

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Contact a physician or Poison Control Center immediately. Do not induce vomiting unless directed by a physician. This product contains a high amount of petroleum distillate vomiting may cause aspiration pneumonia.

IF INHALED: Remove affected person to fresh air. Apply artificial respiration if indicated.

IF IN EYES: Flush eyes with plenty of water. Contact a physician if irritation persists.

IF ON SKIN: Remove contaminated clothing and wash affected areas of skin with soap and water. Contact a physician if irritation persists.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE AND SPILL PROCEDURES

Store upright at room temperature. Avoid exposure to extreme temperatures in case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, fuller's earth, etc. Dispose of with chemical waste.

PESTICIDE DISPOSAL

Pesticides, spray mixture or rinse water that cannot be used according to label instructions must be disposed of at or by an approved waste disposal facility.

CONTAINER DISPOSAL

Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures.

SPACE TREATMENT: Close doors and windows and shut off ventilating systems. Apply as a fog or fine mist, distributing the spray throughout the area. Use at a rate of 1 ounce per 1000 cubic feet of space. Direct spray behind and under obstructions and contact crawling insects whenever possible. Keep area closed for 10 to 15 minutes. Vacate treated area and ventilate before reoccupying. Repeat treatment as necessary. For Wasps and Hornets, spray late in the evening when insects are at rest.

The above described application will kill accessible exposed stages of house flies, fruit flies, mosquitoes, silverfish, small flying moths, gnats, crickets, cockroaches, spiders, scorpions, wasps, hornets, clover mites, cheese mites, cheese shippers, and these common stored product pests: granary weevils, rice weevils, confused flour beetles, saw-toothed grain beetles, spider beetles, cigarette beetles, drugstore beetles, Angoumois grain moths, Mediterranean flour moths, Indian meal moths, tobacco moths, meal worms and grain mites.

SURFACE APPLICATION: To insure maximum control of crawling insects listed, apply as a coarse mist directed toward insects, into cracks, crevices, around machinery, around containers of stored products and other areas wherever these insects may hide. Repeat as necessary.

SPACE SPRAY - Stored Sweet Potatoes: Use 1 gallon of this material per 100,000 cubic feet to control vinegar flies. Apply as a space spray with a mechanical or thermal generator. Apply only when flying insects are present. During periods of heavy infestation several applications may be necessary. Do not make more than 10 applications.
