Attention: Frederick H. von Unwerth
Attorney for Interface Research Corporation

Gentlemen:

Subject: Intersept™
EPA Registration No. 43670-1
Your Amendment Application Dated August 6, 1986

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you:

1. Make the labeling change listed below before you release the product for shipment bearing the amended labeling:
 - The signal word DANGER must be in the correct type size.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.
3. In the future, any application for amended registration must be made on EPA Form 8570-1.

PRECAUTIONARY STATEMENTS

Hazards to Humans and domestic animals

CORROSIVE, causes eye and skin damage. May be absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

Environmental Hazards

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Storage and Disposal

Storage: Store at ambient temperature.

Prohibitions: Do not contaminate water, food or feed by storage or disposal.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

General: Consult Federal, State or local disposal authorities for alternative procedures.

Substances and Risk
Improvement Act
as amended, for
registered under EPA
436
A Fungistat and Bacteriostat for
Incorporation into various products.

Active Ingredients:

Dodecyl bis (hydroxyethyl) dioctyl ammonium phosphate	66.4
Dodecyl bis (hydroxyethyl) octyl- hydrogen ammonium phosphate	15.9
Inert ingredient	17.7

Total 100.0

**KEEP OUT OF REACH
OF CHILDREN**

DANGER

Statement of Practical Treatment: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink large quantities of milk, egg whites, gelatin solution. If these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage, measures against circulatory shock, respiratory depression and convulsion may be needed.

See Side Panel for Additional Precautions.

A FUNGISTAT AND BACTERIOSTAT FOR NATURAL AND SYNTHETIC
POLYMERIC SEALANTS, ADHESIVES AND CAULKING COMPOUNDS

GENERAL INFORMATION

Polymeric sealants, adhesives and caulking compounds formulated with INTERSEPT® represent new technology in providing durable protection against a broad spectrum of both Gram positive and Gram negative odor causing bacteria as well as fungi (including mold and mildew). INTERSEPT® is introduced into the polymer during formulation. Once formulated, there is no loss of efficacy due to washing or wear. The bacteriostatic and fungistatic properties are immediate on contact in the presence of moisture.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product is intended for use only in connection with manufacturing processes and is not intended to come into the hands of the general public except after incorporation into finished products, e.g., polymeric sealants, adhesives and caulking compounds.

INTERSEPT® is introduced during the formulation of the polymer at a level of 1-5% based on the total weight of the polymer.

TECHNICAL DATA SHEET NO. 12

INTERSEPT®

A FUNGISTAT AND BACTERIOSTAT FOR WATER, OIL AND SOLVENT BASED PAINTS, STAINS AND OTHER COATING SYSTEMS FOR USE ON INTERIOR AND EXTERIOR SURFACES, SUBSTRATES, MACHINERY AND EQUIPMENT

GENERAL INFORMATION

Incorporation of INTERSEPT® into paints and other coating systems represents new technology in providing durable properties throughout the coating systems. We are now able to introduce the antimicrobial agent by formulating it within the coating system during the manufacturing process. Once formulated, there is no loss of efficacy due to washing or wear.

INTERSEPT® in coating systems is effective as a bacteriostat and fungistat against a broad spectrum of both Gram positive and Gram negative odor-causing bacteria and fungi (including mold and mildew).

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product is intended for use only in connection with manufacturing processes and is not intended to come into the hands of the general public except after incorporation into finished products, e.g., paints and other coating systems.

Mix INTERSEPT® directly into the coating system formulation at a level from 0.1-5 Percent based on the total weight of all the components of the coating system.
