TECHNICAL DATA SHEET NO. 18

INTERSEPT®

A FUNGISTAT AND BACTERIOSTAT FOR TOPICAL TREATMENT OF TEXTILE PRODUCTS, INCLUDING WALL COVERINGS, CAR TOPS, AWNINGS, TARPAULINS, TENTS, SAILS, DRAPES, SHOWER CURTAINS, CUBICLE CURTAINS, AND INDUSTRIAL FABRICS.

GENERAL INFORMATION

Topical treatment of textile products with INTERSEPT® represents new technology in providing durable properties throughout these products. We are now able to introduce the antimicrobial agent by topically treating the textile material during the manufacturing process. Once treated, there is no loss of efficacy due to washing or wear under normal use conditions.

Textile material containing INTERSEPT® is effective as a bacteriostat and fungistat against a broad spectrum of both Gram positive and Gram negative odor causing bacteria, fungi, and molds.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product is intended for use only in connection with manufacturing processes and is not intended to come into the hands of the general public except after incorporation into finished textile products.

Expose textile material to a water emulsion containing INTERSEPT® at a 1-5% concentration and allow to dry.

EPA Registration No.: 43670-1
EPA Establishment Nos.: 48937-NC-01
