

# INTERSEPT®

A Fungistat and Bacteriostat  
Incorporation into Various Products

## INGREDIENTS:

(cocoimino) - bis, salt with Phosphoric acid, hexyl ester (1:1) .....	66.4%
(cocoimino) - bis, salt with Phosphoric acid, hexyl ester (1:1) .....	15.9%
1, mono (2-ethylhexyl) ester .....	17.7%
.....	100.0%

## OUT OF REACH OF CHILDREN DANGER

<b>FIRST AID</b>
Read the entire contents of this container or label with you when calling a poison control center, or going for treatment.
If in eyes: Keep eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on clothing: Remove or cut off contaminated clothing. Wash skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or a doctor. Do not give anything by mouth to an unconscious person.
If breathing is difficult: Move person to fresh air. If breathing is not breathing, call 911 or an ambulance, then begin artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
<b>ADDITIONAL PRECAUTIONARY STATEMENTS</b>
Eye irritation may contraindicate the use of gastric lavage, circulatory shock, respiratory depression and convulsion

Panel for Additional Precautionary Statements

NET CONTENTS \_\_\_\_\_

## BENEFITS

Durable, broad-spectrum bacteriostat and fungistat for incorporation into various products. Incorporation of INTERSEPT® will protect against deterioration from bacteria and fungi and thus encourages hygienic freshness. Once formulated, there is no loss of efficacy due to washing or wear. Protected products will resist odor and inhibit the growth of bacteria and fungi.

Intersept® is a fungistate and bacteriostat for (1) carpets; (3) epoxy flooring, coating, tile and grout products; (4) Vinyl products, including wall coverings, car tops, awnings, tarpaulins, tents, sails, drapes, shower curtains, cubicle curtains, film to be used for purposes other than food storage, and flooring products; (5) plastic furniture, excluding food used for food service and food storage; (6) acrylic, urethane, wax and varnish floor sealers, finishes and maintainers; (7) polyvinyl acetate indoor and outdoor paints; (8) polymeric laminates, excluding laminates used for food preparation surfaces; (9) polymer concrete; (10) synthetic and non-woven textile products, including wall coverings, car tops, awnings, tarpaulins, tents, sails, drapes, shower curtains, and cubicle curtains; (11) polymeric packaging film to be used for purposes other than food storage; (12) water-, oil and solvent based paints, stains and other coating systems for use on interior and exterior surfaces substrates machinery and equipment, including heating, venting, and air conditioning systems; (13) molded polymeric and polymer concrete bath-tubs, showers, bathroom sinks, bathroom countertops, and bathroom accessories; (14) various molded polymer and polymer concrete products for general household, industrial, commercial, and health care use; (15) natural and synthetic polymeric sealants, adhesives, and caulking compounds; (16) incorporation into textile upholstery, mattresses, mattress ticking and mattress covers; (17) incorporation into vinyl upholstery, mattresses, mattress ticking, and mattress covers; (18) topical treatment of textile products, including wall coverings, car tops, awnings, tarpaulins, tents, sails, drapes, shower curtains, cubicle curtains, and industrial fabrics; and (19) topical treatment or impregnation of air filters to be used in furnaces, air conditioners, air purification devices, automobiles, and recirculating air handling systems. Refer to specific Technical Data Sheets as indicated in ( ) above for complete directions for use.

**ACCEPTED**  
JAN 30 2002  
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the Suite  
Pesticide, registered under

**INTERSEPT®**

**A FUNGISTAT AND BACTERIOSTAT FOR CARPETS**

**GENERAL INFORMATION**

Construction of carpet containing INTERSEPT®, an amine salt, represents a new technology in providing long lasting properties throughout the carpet. We are now able to introduce the antimicrobial agent by chemically bonding it within the primary backing of the carpet during the curing process. Once bonded, there is no loss of bacteriostatic and fungistatic efficacy due to wear.

Carpet containing INTERSEPT® is effective as a bacteriostat and fungistat against a broad spectrum of both Gram-positive and Gram-negative odor causing bacteria, fungi and molds.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is intended for use only in connection with manufacturing processes and is not intended to come into the hands of the general public except after incorporation into finished products, e.g., floor carpeting.

Mix INTERSEPT® directly into the polymeric emulsion at a level from 0.1-2% based on the total weight of the emulsion. Mixing should be done in the same kettle and at the same time that the polymeric emulsion backing is formulated.

**TECHNICAL DATA SHEET NO. 3**

**INTERSEPT®**

**A BACTERIOSTAT AND FUNGISTAT FOR EPOXY FLOORING, COATING, TILE AND GROUT PRODUCTS.**

**GENERAL INFORMATION**

Epoxies formulated with INTERSEPT® for use in flooring and floor coating systems, wall, ceiling, and industrial coating systems, and tile and grout systems represent new technology in providing long-lasting protection against a broad spectrum of both gram-positive and gram-negative odor causing bacteria as well as fungi. INTERSEPT® is introduced into the epoxy system during formulation. Once formulated, there is no loss of efficacy due to washing or wear. The bacteriostatic and fungistatic properties are immediate on contact in the presence of moisture.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is intended for use only in connection with manufacturing processes and is not intended to come into the hands of the general public except after incorporation into finished products, e.g., epoxy flooring and coating systems.

INTERSEPT® is introduced during the formulation of the epoxy system at a level of 0.2 - 5%, based on the total weight of all the components of the flooring, coating, tile or grout system.

**TECHNICAL DATA SHEET NO. 4**

**INTERSEPT®**

**A FUNGISTAT AND BACTERIOSTAT FOR VINYL PRODUCTS, INCLUDING WALL COVERINGS, CAR TOPS, AWNINGS, TARPAULINS, TENTS, SAILS, DRAPES, SHOWER CURTAINS, CUBICLE CURTAINS, FILM TO BE USED FOR PURPOSES OTHER THAN FOOD STORAGE, AND FLOORING PRODUCTS**

**GENERAL INFORMATION**

Incorporation into vinyl products of INTERSEPT® represents new technology in providing long lasting properties throughout the vinyl. We are now able to introduce the antimicrobial agent by formulating it within the vinyl during the manufacturing process. Once formulated, there is no loss of efficacy due to washing or wear.

Vinyl containing INTERSEPT® is effective as a bacteriostat and fungistat against a broad spectrum of both Gram positive and Gram negative odor causing bacteria, fungi and molds.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is intended for use only in connection with manufacturing processes and is not intended to come into the hands of the general public except after incorporation into finished vinyl products.

Mix INTERSEPT® directly into the vinyl plastisol at a level from 1-5% based on the total weight of all the components of the vinyl formulation. If the vinyl polymer is in pellet form, INTERSEPT® should be tumble mixed with the pellets prior to extrusion.

**INTERSEPT®**

**A FUNGISTAT AND BACTERIOSTAT FOR PLASTIC FURNITURE, EXCLUDING FURNITURE USED FOR FOOD SERVICE OR FOOD STORAGE**

**GENERAL INFORMATION**

Construction of plastic furniture containing INTERSEPT® represents new technology in providing long-lasting properties throughout the product. We are now able to introduce the antimicrobial agent by chemically bonding it within the plastic during the manufacturing process. Once bonded, there is no loss of efficacy due to washing or wear.

Plastic furniture containing INTERSEPT® is effective as a bacteriostat and fungistat against a broad spectrum of both Gram positive and Gram negative odor causing bacteria, fungi and molds.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is intended for use only in connection with manufacturing processes and is not intended to come into the hands of the general public except after incorporation into finished products.

Tumble mix INTERSEPT® with the thermoplastic resin at a level from 1-5% based on the weight of the formulated resin pellets, prior to extrusion.

**A FUNGISTAT AND BACTERIOSTAT FOR ACRYLIC, URETHANE, WAX AND VARNISH FLOOR SEALERS, FINISHES AND MAINTAINERS (CARPET SHAMPOOS, DRY EXTRACTION COMPOUNDS & CLEANERS, SPOT REMOVERS AND OTHER TYPES OF FLOORING MAINTENANCE PRODUCTS)**

**GENERAL INFORMATION**

Incorporation of INTERSEPT® into acrylic, urethane, wax and varnish floor sealers, finishes and maintainers represents new technology in providing long-lasting properties throughout these floor products. We are now able to introduce the antimicrobial agent by formulating it within the acrylic, urethane, wax or varnish during the manufacturing process. Once formulated, there is no loss of efficacy due to washing or wear.

Acrylic, urethane, wax and varnish sealers, finishes and maintainers containing INTERSEPT® are effective as a bacteriostat and fungistat against a broad spectrum of both Gram positive and Gram negative odor causing bacteria, fungi and molds.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is intended for use only in connection with manufacturing processes and is not intended to come into the hands of the general public except after incorporation into finished products; e.g., floor sealers, finishes and maintainers.

Mix INTERSEPT® directly into the product formulation at a level from 0.1-5% based on the total weight of the product formulation.

**A FUNGISTAT AND BACTERIOSTAT FOR SYNTHETIC AND NON-WOVEN  
TEXTILE PRODUCTS, INCLUDING WALL COVERINGS, CAR TOPS, AWNINGS,  
TARPAULINS, TENTS, SAILS, DRAPES, SHOWER CURTAINS AND CUBICLE  
CURTAINS**

**GENERAL INFORMATION**

Incorporation into synthetic and non-woven textile products of INTERSEPT® represents new technology in providing long properties throughout the product. We are now able to introduce the antimicrobial agent by impregnating the textile material during the manufacturing process. Once impregnated, there is no loss of efficacy due to washing or wear under normal conditions.

Synthetic and non-woven textile material containing INTERSEPT® is effective as a bacteriostat and fungistat against a broad spectrum of both Gram positive and Gram negative odor causing bacteria, fungi and molds.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is intended for use only in connection with manufacturing processes and is not intended to come into the hands of the general public except after incorporation into finished products; e.g., synthetic and non-woven textile products.

For synthetic fibers, tumble mix INTERSEPT® with the polymeric resins or pellets at a level of 1-5% based on the total weight of the formulated resins or pellets, prior to extrusion. For non-woven fabrics, mix INTERSEPT® directly into the polymeric binder at a level of 1-5% based on the total weight of the formulated binder.

**COMPOSITE TECHNICAL DATA SHEET**

**INTERSEPT®**

A fungistat and bacteriostat for (1) carpets; (3) epoxy flooring, coating, tile and grout products; (4) vinyl products, including wall coverings, car tops, awnings, tarpaulins, tents, sails, drapes, shower curtains, cubicle curtains, film to be used for purposes other than food storage, and flooring products; (5) plastic furniture, excluding furniture used for food service or food storage; (6) acrylic, urethane, wax and varnish floor sealers, finishes and maintainers; (7) polyvinyl acetate indoor and outdoor paints; (8) polymeric laminates, excluding laminates used for food preparation surfaces; (9) polymer concrete; (10) synthetic and non-woven textile products, including wall coverings, car tops, awnings, tarpaulins, tents, sails, drapes, shower curtains, and cubicle curtains; (11) polymeric packaging film to be used for purposes other than food storage; (12) water-, oil- and solvent-based paints, stains, and other coating systems for use on interior and exterior surfaces, substrates, machinery and equipment, including heating, venting, and air conditioning systems; (13) molded polymeric and polymer concrete bathtubs, showers, bathroom sinks, bathroom countertops, and bathroom accessories; (14) various molded polymer and polymer concrete products for general household, industrial, commercial, and health care use; (15) natural and synthetic polymeric sealants, adhesives, and caulking compounds; (16) incorporation into textile upholstery, mattresses, mattress ticking and mattress covers; (17) incorporation into vinyl upholstery, mattresses, mattress ticking and mattress covers; (18) topical treatment of textile products, including wall coverings, car tops, awnings, tarpaulins, tents, sails, drapes, shower curtains, cubical curtains, and industrial fabrics; and (19) topical treatment or impregnation of air filters to be used in furnaces, air conditioners, air purification devices, automobiles, and recirculating air handling systems.

**GENERAL INFORMATION**

Incorporation of INTERSEPT® into carpet backing, epoxy, vinyl, polymeric and fiber systems and paints, stains and other coating systems represents new technology in providing durable properties throughout the products. We are now able to introduce the antimicrobial agent by formulating it within the chemical matrix during the manufacturing process. Once formulated, there is no loss of efficacy due to washing or wear.

INTERSEPT® in carpet backing, paints, stains, coatings, epoxy, vinyl, polymeric and fiber systems is effective as a bacteriostat and fungistat against a broad spectrum of both Gram positive and Gram negative odor causing bacteria and fungi, including mold and mildew.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is intended for use only in connection with manufacturing processes and is not intended to come into the hands of the general public except after incorporation into finished products, e.g., carpet backing, paints and other coating systems.

Mix INTERSEPT® directly into the system formulation at a level from 0.1-5%, based on the total weight of all the components of the formulated system.
