

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
(AND DOMESTIC ANIMALS)**

CAUTION

IN CASE OF EYE CONTACT: Immediately flush eyes with running water for at least 15 minutes. Call a physician.

IN CASE OF SKIN CONTACT: Wash the affected area with soap and warm water.

Causes eye and skin irritation. May cause temporary blindness if splashed through skin. Do not get in eyes. Wash immediately. Avoid contact with face shield and rubber gloves when using. Wash with soap and water after handling. Avoid breathing dust or mist. Do not use or store near food.

During sun thermal exposure, in heat treatment and during operation, wear goggles, eye shield, rubber gloves, protective clothing and a positive pressure respirator, fully approved by the Mining Enforcement and Safety Administration, formerly the U.S. Bureau of Mines, and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR part 11.

Wash hands, arms, and face thoroughly with soap and water after handling and before eating or smoking. Routinely shower or bathe after work and wash clothing with soap and hot water before reusing.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Keep out of any body of water. Do not contaminate water by running of equipment or disposal of wastes. Burial wastes and empty containers in isolated areas away from water supplies.

DIRECTIONS FOR USE:

Read all directions of State and Federal law to use this product in a manner consistent with its labeling.

Read all directions before using and use only as specified in the label.

DIRECTIONS: Thoroughly mix the recommended amount of **Captan 300-DD Flowable Seed Protectant** into the required amount of water in the spray tank or equipment and dilute to rate to be used. Use immediately after mixing. Between treating operations.

IMPORTANT: Treated seed must not be used for human consumption. Do not use seed. Bags containing treated seed should be clearly labeled.

TREATED SEED

DO NOT USE FOR FEED, FOOD, OR OIL PURPOSES

EPA, Federal Government and State States have issued regulations for the application of sprays or dusts to be affixed to bags containing treated seed. Dispose of excess treated seed by burial.

Captan 300-DD Flowable Seed Protectant is a liquid solvent with active ingredients for the treatment of seed prior to storage and plant growth. It controls molds and other fungi causing storage loss and to protect seed from seed-borne and soil-borne fungi which cause seed decay, damping-off and other seedling diseases. At the recommended dosage **Captan 300-DD Flowable Seed Protectant** is injurious to seeds or seedlings and the germination of treated seed is fully stimulated, giving a superior result as compared to results from untreated seed. This product contains DOUBLE DYE, as compared with **Captan 300 Flowable Seed Protectant**, for applications where extra brightness is desired.

CAPTAN 300-DD

Flowable Seed Protectant
Agricultural Fungicide — Liquid Suspension
