

CORROSIVE LIQUID, N.O.I.

DIRECTIONS

It is a violation of federal law to use this product in a manner consistent with its labeling.

STORAGE & DISPOSAL

Storage: Do not contaminate water, food or feed by storage or disposal. Pesticide Disposal: Pesticide, spray mixture or residue that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

Container Disposal: Reseal container and offer for reconditioning, or triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill or bury in a safe place.

General: Consult federal, state or local disposal authorities for approved alternative procedures.

Bin Preparation

As with other blends of acids, Agway IBP-2 Grain Preservative is corrosive. Bins should be protected by lining with non-toxic plastic sheeting before filling.

Application

Agway IBP-2 Grain Preservative is suggested for application as directed below immediately after harvest to prevent fungal growth in stored corn, milo, barley, wheat, and oats.

Pounds per ton of grain with the following respective percent moisture contents

Moisture Content (%)	15	18	20	22	24	25	28	30	32	34	36
----------------------	----	----	----	----	----	----	----	----	----	----	----

Pounds of AGWAY

IBP-2 Grain

Preservative

[Convert to "fluid oz. per 100 lbs. of grain" by use of the formula (lbs. product per ton grain) X 0.79 (fl. oz. product per cwt. grain)]

Apply undiluted, by use of low pressure spray nozzles achieving uniform coverage, as grain passes through applicator. Stop grain flow immediately in event of spray failure or nozzle plugging. Concentrations of untreated grain may develop fungal growth which may spread and spoil all grain in the bin. DO NOT APPLY TO SEED GRAIN since application will reduce grain to Sample Grade and reduce germination. Increasing the suggested rate of application in the Table by 25% for the top 10% of the grain placed in each storage bin will provide additional protection against the effect of normal moisture migration in the grain during storage.

AGWAY INC. CHEMICAL DIVISION
BOX 493J SYRACUSE NY 13221

AGWAY IBP-2 GRAIN PRESERVATIVE

ACTIVE INGREDIENTS:

Isobutyric Acid 60%
Propionic Acid 40%

TOTAL 100%

EPA Reg. No. 8590-545
EPA Est. No. 8590-PA-1

KEEP OUT OF REACH OF CHILDREN.

**DANGER! CORROSIVE: CAUSES EYE & SKIN DAMAGE
COMBUSTIBLE**

Do not get in eyes, on skin or clothing.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. Remove clothing and shoes if contacted with product. Call a physician. Wash clothing before reuse.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS: Do not get in eyes, on skin or clothing. Rubber gloves, rubber aprons and rubber footwear and goggles or face shield should be worn.

Avoid breathing vapor. Use approved respirator if working near mist or high concentration of vapors.

Keep container closed. Use with adequate ventilation. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS: Do not contaminate water by cleaning of equipment or disposal of wastes.

Spillage should be neutralized with sodium carbonate (soda ash), sodium bicarbonate, chalk or agricultural lime or washed away with plenty of water.

PHYSICAL OR CHEMICAL HAZARDS: Do not use, pour, spill or store near heat or open flame.

NET CONTENTS 53.5 Gal.

NET WEIGHT 430 Lbs.

A 4/81

NOTE: This pesticide is to be sold only in its original unopened package.
DISCLAIMER: Buyer assumes all risks of use, storage or handling not in strict accordance with directions given herein.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
(AND DOMESTIC ANIMALS)
CAUTION**

IN CASE OF EYE CONTACT: Immediately flush eyes with running water for at least 15 minutes. Call a physician.

IN CASE OF SKIN CONTACT: Wash the affected areas with soap and warm water.

Causes eye and skin irritation. Harmful if swallowed, inhaled, or absorbed through skin. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash with soap and water after handling. Avoid inhaling of spray mist. Do not use or store near food or feed.

During commercial exposure in seed treatment and loading operations wear goggles, clean synthetic rubber gloves, protective clothing, and a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration (formerly the U.S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR part 11.

Wash hands, arms, and face thoroughly with soap and water after handling and before eating or smoking. Routinely shower or bathe after work and wash all clothing with soap and hot water before reusing.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Do not apply directly to lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Bury wastes and empty container in isolated area away from water supplies.

DIRECTIONS FOR USE:

It is a violation of State and Federal Law to use this product in a manner inconsistent with its labeling.

Read all directions before using and use only as specified on this label.

DIRECTIONS: Thoroughly mix the recommended amount of this product into the required amount of water for the slurry treater equipment and dilution rate to be used. Clean equipment thoroughly between treating operations.

NOTE TO USER:

The purchaser of this product is responsible for insuring that all seed treated with this product are adequately dyed with a suitable color to prevent its accidental use as food for man or feed for animals. Refer to 21 CFR Part 2.25. Any dye added to treated seed must be cleared for use under 40 CFR Part 180-1001.

IMPORTANT: Treated seed must not be used for human consumption nor as animal feed. Bags containing treated seed should be labeled:

TREATED SEED

DO NOT USE FOR FEED, FOOD, OR OIL PURPOSES

THE Federal Government and some states have issued regulations for the application of special tags or labels to be affixed to bags containing treated seed. Dispose of excess treated seed by burial.

PRODUCT INFORMATION:

This product is a liquid suspension especially formulated for the treatment of seed prior to storage and planting to protect seed from molds and other fungi which cause seed decay, damping-off, and seedling blights. At the recommended dosage this product is noninjurious to seeds or seedlings and the germination of treated seed is frequently stimulated, giving a superior result as compared to results from untreated seed.

AGRICULTURAL PRODUCTS COMPANY, Ft. Worth, TX 76112

**SEED TREATMENT
FLUID OUNCES per**

The Following Table gives the amount of CAPTAN 300 in FLUID OUNCES per HUNDRED

SEED

Alfalfa, Clover, Lespedeza, Trefoil	
Beans (snap, dry cowpeas)	
Beets (garden)	
Cereal Grains (for seed & seedling roots - not for)	
Barley, rye	
Oats	
Wheat	
Cole Crops (Broccoli, Brussels sprouts, Cabbage)	
Field Corn	
Sweet Corn	
Cotton	
Acid delinted cotton	
Reginned and Fuzzy cotton	
Crucifers (Mustard, Rapeseed, Rape, Turnips)	
Flax	
Grasses	
Milo	
Muskmelon, Watermelon, Pumpkin, Squash	
Peanuts (unshelled)	
Peas	
Rice	
Sorghum (nut-less)	
Soybeans	
Spinach	
Sugar Beets, West	
East	
Surfwrass	
Swiss Chard	
Tomato, Cucumbers, Cantaloupe	

Use lower rates shown above when method of application is changed. Use high rate when favorable planting weather prevails. Use high rate where method of treating may not be consistent.

STORAGE

- 1. PROHIBITIONS:** Do not contaminate water. Do not reuse empty container.
- 2. PESTICIDE DISPOSAL:** Pesticide, spray, or other material must be disposed of according to source, conservation, and recovery act.
- 3. CONTAINER DISPOSAL:** Dispose of containers under the Resource, Conservation, and Recovery Act, or in a sanitary landfill or by incineration if permitted.
- 4. GENERAL:** Consult Federal, State or Local laws such as limited open burning.
