DIRECTIONS

FOR SPOT APPLICATION ONLY: Use this product containing Dursban[®] as a spot treatment to control cockroaches, ants, silverfish, spiders, and other pests specified below. Apply as a coarse (large droplet) spray to localized areas where pests may occur. Spray surfaces until wet. Retreat as needed.

COCKROACHES, ANTS, SILVERFISH, SPIDERS: Spray areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices in walls, along baseboards and door and window sills and frames, behind and beneath sinks, stoves, refrigerators and cabinets, and around garbage cans, plumbing, and other utility installations. Pests driven out of hiding places should be sprayed directly.

BROWN DOG TICKS, FLEAS: To control these pests, thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames, and localized area of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment. **DO NOT SPRAY PETS WITH THIS PRODUCT.** Treat pets with a product registered for animal application to control the source of the flea or tick infestation.

FLIES AND MOSQUITOES: Use only out of doors as an additional reducing annoyance from these insects. Spray outside surfaces of window and door frames, as well as other areas where these pests may enter (such as under eaves, drip on the eaves, and garages) where these insects may congregate. Flies and mosquitoes continue to nest on treated surfaces while the insecticidal treatment which effect is diminished.

CAUTION: DO NOT USE THIS SPRAY ON CARPETS, FURNITURE, UPHOLSTERY, OR STAINED WOODWORK.
