TERM OF ISSUANCE		NAME OF PESTICIDE PRODUCT 3818-25
NAME AND ADDRESS OF REGISTRANT (Include ZIP code) <p align="center"> Industrial Water Treatment Company, Inc. 1032 East Oak Street Louisville, KY 40204 </p>		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act. <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p>		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:		
1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.		
2. Add the phrase "EPA Registration No. 43792-5" to your label before you release the product for shipment.		
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-7 ^o Enclosure for a further description of final printed labeling.		
If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.		
A stamped copy of the label is enclosed for your records.

3818-25

SEP 05 1986

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the product registered under EPA Reg. No.

43792-5

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 25.0 %

INERT INGREDIENTS 75.0 %

This product contains 2.3 lb. of active ingredient per gallon and weighs 9.25 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN
DANGER**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: *In case of skin contact*, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. *If product gets in the eyes*, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. *If product is swallowed*, promptly drink 1 or 2 glasses of water. Contact a physician or Poison Control Center immediately. **DO NOT INDUCE VOMITING.**

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

recirculating cooling tower systems and in the presence of microbial or microbiological slime. Prior to the use of 3818-25 industrial and/or commercial recirculating cooling towers, the towers should be cleaned to remove algal growth, microbiological growth, and other debris. An initial slug addition of 4.5 to 6.8 fl. oz. per 1000 gal. of water to provide 40 to 60 ppm of active ingredient, based on total weight of water, is recommended until control is evident. Make subsequent slug additions of 3818-25 ppm 3818-25 (ppm 3818-25) every 7 to 10 days. The amount of addition depends upon the relative amount of microbial growth and the microbiological problem. Slug additions should be made to the recirculating tower systems.

3818-25

which maintain effective mist-eliminating compounds. The cooling towers should be cleaned to remove bacterial slime and other debris. An initial dosage of 13.6 fl. oz. of 3818-25 is recommended. Repeat initial dosage until control is evident. 7.9 to 13.6 fl. oz. of 3818-25 per 1000 gallons of water should be employed every 7 to 10 days. The amount of addition depends upon the relative amount of biological growth. Slug additions may be made to the sump or to the recirculating tower system.

STORAGE AND

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not expose to extreme temperatures. Do not store in areas where the product could be exposed to fire. Drums should be placed in overpack drums for disposal. Spills should be cleaned up immediately. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Do not discharge into surface waters. If these wastes are discharged, they must be done so in a controlled manner. For more information, contact your State Pesticide or Environmental Control Agency, or your nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:

PLASTIC: Triple rinse (or equivalent). Then offer for recycling or incineration, or, if allowed by state or local authority, by other procedures approved by state or local authority.

METAL: Triple rinse (or equivalent). Then offer for recycling or incineration, or by other procedures approved by state or local authority.
