**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Corrosive. May cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash hands after handling. Vacate poorly ventilated areas as soon as possible. Do not return until vapors have dissipated.

**ENVIRONMENTAL HAZARDS:** This pesticide should be kept out of lakes, streams or ponds. Treated effluent should not be discharged into lakes, streams, ponds or public waters unless a discharge permit is obtained. For guidance contact the regional office of the Environmental Protection Agency.

**PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT:** Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals will create hazardous gases irritating to eyes, lungs and other mucous membranes.

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

**FIRST AID:** If on skin, wash with plenty of water. If in eyes, flush with water for at least 15 minutes. Get medical attention if irritation persists. If swallowed, drink large quantities of milk or water. Do not give vinegar or other acids. If inhaled, get prompt medical attention.

## DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

### DIRECTIONS FOR SWIMMING POOL CHLORINATION

For a new pool or for spring start up, superchlorinate with one (1) pint (16 fl. oz.) of sodium hypochlorite solution for each 2500 gallons of water. This dosage is equivalent to 5 ppm available chlorine by weight.

### FOR POOL MAINTENANCE:

- A. Adjust pool water pH to 7.6 - 7.2 range and maintain.
- B. Add manually or by a feeder device, sodium hypochlorite solution at a rate to maintain an available chlorine residual of 1.0 to 1.5 ppm. One half pint (8 fl. oz.) of sodium hypochlorite solution for each 5000 gallons of water will provide 1.0 ppm available chlorine by weight. Frequency of additions to maintain 1.0 to 1.5 ppm available chlorine will depend on temperature and of number swimmers. Use test kit to make certain that pH and chlorine residual are in the proper range.

**NOTE:** This product meets low pH application test and is safe to apply as necessary to maintain the required level of available chlorine.

**STORAGE AND DISPOSAL:** This product will keep indefinitely if stored in original container. Do not use if container is damaged or leaking.

**STORAGE:** Store in a cool, dry place. Do not store near acids.

**PESTICIDE DISPOSAL:** This product is not a pesticide. Do not dispose of this product in a way that will cause it to become a pesticide or other toxic substance.

**CONTAINER DISPOSAL:** This product is not a pesticide. Do not dispose of this product in a way that will cause it to become a pesticide or other toxic substance.

## WARNINGS

### TOXIC ANIMALS

Chlorination or chemical treatment may be fatal if swallowed, enters eyes, on skin or on mucous membranes. Wear rubber gloves when handling. Vacate poorly ventilated areas until odors dissipate.

Very toxic to fish. Keep out of streams, rivers, ponds, lakes, and other public waters unless a permit is obtained from the regional water quality control board.

### STRONG OXIDIZING

See directions. Mixing with urine, etc., or with other chemicals will release toxic fumes.
