## DIRECTIONS FOR USE

NOTE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

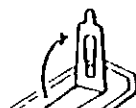

### STORAGE & DISPOSAL:

DO NOT RE-USE EMPTY ENVELOPES. Wrap and place in trash collection. Do not incinerate. Used stands, if kept for further use, must be stored out of reach of children and pets.

For best results—place one coil about every 8–10 feet (2–3m) around perimeter of area to be protected. Most effective in semi-confined outdoor sites such as porches, patios, open gazebos, pavilions, shelter-halves, lean-to's in lee of wind direction. Duration and results are affected by willow and breeze. Save the stands after use to permit burning more coils with future packages.

Gently flex interlocked coils to separate.

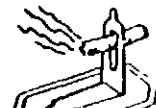

Bend tab straight up.

Firmly insert stand tab into coil slot.

Hold match to coil end until ignited. Blow out flame.

Broken pieces may be used as shown.
