

U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (WH-567) WASHINGTON, D.C. 20460	EPA REGISTRATION NO. 43022-A	DATE OF ISSUANCE JUN 14 1984
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>	NAME OF PESTICIDE PRODUCT Stabilized Chlorine Tablets <i>10F3 PM 92</i>	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code) <input type="checkbox"/> Chem-Bright Industries, Inc. 5540 Tadvorth West Bloomfield, MI 48033		
BEST DOCUMENT AVAILABLE		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(C) provided that you:		
<ol style="list-style-type: none"> 1. Add the phrase "EPA Registration No. 43022-4" to your label before you release the product for shipment. 2. Add the phrase "EPA Registration No. 43022-4" to your label before you release the product for shipment. 3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-70 Enclosure for a further description of final printed labeling. 		
A copy of your proposed label with our acceptance stamp is included with this registration with the understanding that you will comply with the conditions in the attachment to the registration notice.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS**

Danger

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance contact your regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

Strong oxidizing agent. Mix only with water. Use only plastic utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases and possible generation of fire explosion. In case of contamination or decomposition do not reuse container. If possible isolate container in open air or well-ventilated area. Flood with large volume of water if necessary.

ACTIVE INGREDIENT
Trichloro-s-triazinetriene*

99.5%

INERT INGREDIENT

0.5%

AVAILABLE CHLORINE 89%

100.0%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

Practical Treatment FIRST AID

If swallowed: Feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention. If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

SEE ADDITIONAL PRECAUTIONS ON SIDE PANEL

1. STABILIZE pool water. This is necessary to insure maximum effectiveness of tablets. Previously unconditioned pools should be treated with Water Conditioner (cyanuric acid)*.
2. CHECK RESIDUAL CHLORINE with a suitable chlorine test kit. If below 1.0 part per million (ppm), add Dry Chlorine (granular)* to establish residual chlorine at 1.0 to 1.5 ppm.
3. MAINTAIN RESIDUAL CHLORINE at 1.0 to 1.5 ppm by placing 10 Tablets for every 5,000 gallons of water into feeder every 7 to 14 days. Each tablet supplies about 3 ppm available chlorine per 1,000 gallons of water. The number of tablets required for your pool may vary depending on temperature, wind, rain, pool usage and feeding method. Test pool water frequently with a suitable chlorine test kit to assure the proper concentration of available chlorine level at 1.0 to 1.5 ppm. Adjust subsequent additions as necessary.
4. MEASURE pH immediately and at least once each week with a suitable test kit. Adjust pH to 7.2 to 7.8. Use suitable agents such as Dry Acid* to reduce pH and Soda Ash* to increase pH.

STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of a decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area or bury in a safe place.
