	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT MP-80	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

M & P Technology
 P.O. Box 1P7
 Lesage, WV 25537

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

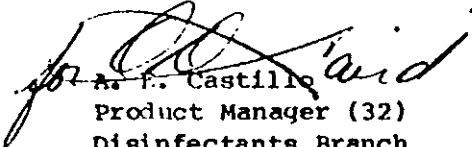

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 43959-1" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

... Pesticide,
... Act
... for the pesticide
... under EPA Reg. No.
43959-1

ACTIVE INGREDIENT:

Poly[oxyethylene (dimethyliminio) ethylene-
(dimethyliminio) ethylene dichloride] 30.0 %

INERT INGREDIENT 70.0 %

This product contains 2.67 lb. of active ingredient per gallon and weighs
8.9 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

MP-80 is used to control bacteria and fungi in recirculating commercial and industrial water systems. To its use, systems must be cleaned to remove slime, and other deposits. An initial slug addition of MP-80 fluid ounces of MP-80 of water to provide a concentration of 16 to MP-80, based on the volume of water in the system, is recommended. Repeat initial dosages of MP-80 Subsequent slug additions of 0.47 to MP-80 per 1000 gallons of water should be employed every 2 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the bacterial problem. Slug additions may be made in the sump collection trays of the airwash system.

MP-80 is used to clean air-washing systems that maintain effective mist. To its use, systems should be cleaned to remove deposits. An initial slug dose of 7.1 to MP-80 per 1000 gallons of water should be employed each time the system is cleaned. Repeat initial dosage until control is evident. Dosages of 4.8 to 11.9 fluid ounces of MP-80 per 1000 gallons of water should be employed each time the system is cleaned. Repeat initial dosage until control is evident. Dosages of 4.8 to 11.9 fluid ounces of MP-80 per 1000 gallons of water should be employed each time the system is cleaned.

MP-80 is used to clean air-washing systems that maintain effective mist. To its use, systems should be cleaned to remove deposits.
