WASHINGTON, DC 20460

EPA REGISTRATION NO.
43773-2

DATE OF ISSUANCE
MAY 24 1980

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

TERM OF ISSUANCE

NAME OF PESTICIDE PRODUCT

Vinyl Pool Shock

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Pool Time Products, Inc.
P.O. Box 887
Scottdale, GA 30079

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to, and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) and section 4 when the Agency requires all registrants of similar products to submit such data.

2. a. Add the phrase "EPA Registration No. 43773-2" to your label before you release the product for shipment.

b. Revise the last sentence in the storage and disposal instructions on the product label to read: "Do not contaminate water, food or feed by storage or disposal."

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

WHY To Use This Product

This Shock product contains a completely soluble active ingredient to destroy non-filterable swimmer wastes in vinyl-lined and colored pools with very little risk of bleaching pool surfaces. When used as directed, VINYL POOL SHOCK restores water clarity, kills germs, helps kill algae that resists normal chlorine levels, and destroys unpleasant odors. Reduces the chances of bleach spotting vinyl, fiberglass colored plaster and other chlorine sensitive pool surfaces. For other types of pools, POOL TIME offers an ALL-PURPOSE SHOCK, packaged in both CONVENIENCE PACKS and bulk form. To shock your pool and swim in 15 minutes, use POOL TIME NON-CHLORINE QUICK-SWIM SHOCK.

HOW To Use This Product

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL APPLICATION

Always add VINYL POOL SHOCK with pump on and water circulating. Broadcast product over pool surface. Use pool brush to disperse granules that may settle on pool bottom.

START-UP/INITIAL SHOCKING: When pH is adjusted (7.4 to 7.6), add 1 pound (approximately 1-3/4 cups) of this product per 10,000 gallons of water. Repeat after 24 hours if needed to establish a chlorine residual of 1.0-3.0 ppm as determined by a test kit.

ROUTINE SHOCKING: Every 2 weeks, after pool pH is adjusted, broadcast 1 pound (approximately 1-3/4 cups) of this product per 10,000 gallons of water. Prohibit swimming until chlorine level falls below 3.0 ppm.

How to Determine Pool Capacity

Shape of Pool	Compute Total Gallons of Water By Multiplying
Rectangle	Length x Width x Average Depth x 7.5
Round	Diameter x Diameter x Average Depth x 5.9
Oval	Long Diameter x Short Diameter x Average Depth x 5.9
Irregular	Consult with pool builder

STORAGE AND DISPOSAL: Keep product dry in a tightly closed container, when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of equipment.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER

KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes eye and skin damage. Irritating to nose and throat. Harmful or fatal if swallowed. Will burn with the evolution of chlorine and equally toxic gases.

Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS — STRONG OXIDIZING AGENT: Will burn with the evolution of chlorine and equally toxic gases. Contact with water slowly liberates irritating and hazardous chlorine containing gases. Decomposes at 480°F. to 490°F. with liberation of harmful gases. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such uses may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion.

IN CASE OF FIRE, if possible isolate container in open air or well ventilated area. Flood with large volume of water. **IN CASE OF CONTAMINATION OR DECOMPOSITION,** do not re-seal container.

STATEMENT OF PRACTICAL TREATMENT: If swallowed: Drink promptly a large quantity of water. DO NOT induce vomiting. NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. Avoid alcohol. Get medical attention. If in eyes: Flush with plenty of water for 15 minutes. Get medical attention. If on skin: Immediately brush off excess chemical and flush with plenty of soap and water. Remove contaminated clothing. Wash clothing before reuse. Get medical attention if irritation persists. If inhaled: Remove person to fresh air. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES Permit. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.
