US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460 NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	EPA REGISTRATION NO. 43973-3	DATE OF ISSUANCE MAY 8 1981
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT 1" Stabilized Chlorinator Tablets	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code) <div style="text-align: center;"> Pool Time Products, Inc. P.O. Box 807 Scottdale, GA 30079 </div>		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is found to comply with the requirements of the FIFRA Act of 1972, section 3(c)(7)(A) provided that you:		
1. Submit/continue all data or other information required for registration or reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the agency requires it; keep records of all data submitted to support such data.		
2. Make the following changes to your label when you release the product for shipment:		
a. Add the phrase "EPA Registration No. 43973-3."		
b. Under the Statement of Practical Treatment, "If swallowed, delete, "If swallowed, give milk followed by oil or oil of cooking oil." Replace with "Drink plenty of water."		
c. Submit five copies of your label to the Registration Division for release the product for shipment. Refer to the 1-79 enclosure for a further description of final product labeling.		
<input type="checkbox"/> ATTACHMENT IS APPLICABLE		
SIGNATURE OF APPROVING OFFICIAL 		DATE

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

WHY To Use This Product

This slow-dissolving, stabilized chlorinator (80% available chlorine) is the most efficient type of sanitizer for pools with automatic feeders or boosters, but is **NOT RECOMMENDED FOR USE IN SKIMMERS**. It reduces chlorine loss due to sun light and other environmental factors better than unstabilized chlorinators such as calcium hypochlorite or liquid chlorine (bleach), and has less effect on pH balance. These slow-dissolving tablets are also available in 3" size for use in skimmers or all other feeders. For pools without feeders a stabilized but less concentrated (62% available chlorine) chlorinator is available in granular form — **POOL TIME GRANULAR STABILIZED CHLORINATOR**.

HOW To Use This Product

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

START-UP/INITIAL TREATMENT: Before using this product to open your pool, **POOL TIME (PT)** recommends: 1. Check pool structure and equipment, clean filter (using **PT Filter Cleaner/Depositer II** needed). Also clean pool walls and bottom thoroughly and get fresh **PT** reagents for your test kit (**POOL TIME TEST KIT** is recommended). 2. If water is cloudy or green, shock (superchlorinate) pool with appropriate **PT SHOCK** product. 3. Test pH and adjust to between 7.4 and 7.6 with **PT pH DOWN** to lower pH or **PT pH UP** to raise pH. 4. Add **PT CHLORINE STABILIZER** (dry cyanuric acid) if test shows stabilizer level below 40 ppm. **IMPORTANT**—All sanitizers work better if water is stabilized at the beginning of the pool season. 5. Test total alkalinity (TA) and adjust if needed with **PT TOTAL ALKALINITY INCREASER** to raise TA or **PT pH DOWN** to lower TA. 6. Shock pool with the **PT SHOCK** product for your type of pool. 7. Test chlorine level and add 1" tablets to feeder or floater to bring level to 1.0 - 3.0 ppm. If pool has a plastic skimmer, use one 1" tablet per 10,000 gallons of pool water. 8. When chlorine level is adjusted to 1.0 - 3.0 ppm, add the **PT ALGICIDE** appropriate to your needs.

ROUTINE MAINTENANCE: Fit feeding device with enough 1" Tablets to assure constant treatment level of 1.0-3.0 ppm available chlorine. Chart below gives dosage guidelines. Weather and pool use affect sanitizer levels, so test pool and check feeding device often and refill as needed.

APPROXIMATE WEEKLY DOSE PT STABILIZED CHLORINATOR TABLETS*				
Approx Pool Size	Approx Gallons	Water 60-70°	Water 70-80°	Water 80-90°
14 x 28	15,000	5 oz.	8 oz.	14 oz.
16 x 32	20,000	7 oz.	12 oz.	18 oz.
18 x 36	30,000	10 oz.	18 oz.	27 oz.
20 x 40	35,000	12 oz.	21 oz.	31 oz.
24 x 48	45,000	15 oz.	27 oz.	41 oz.

* Each 1" tablet weighs about 1/2 ounce.

In addition to routine use of this product as directed, **PT** recommends:
1. At least once a week, test pH and adjust to between 7.4 and 7.6 if

needed with **PT pH DOWN** to lower pH or **PT pH UP** to raise pH. 2. Every 4 weeks, test water stabilization and add **PT CHLORINE STABILIZER II** needed. 3. Every 4 weeks, test for total alkalinity (TA) and adjust if needed with **PT TOTAL ALKALINITY INCREASER** to raise TA or **PT pH DOWN** to lower TA. 4. Every 2 weeks, check pool with the **PT Shock** product for your type of pool. 5. Once a week, add the **PT ALGICIDE** appropriate to your needs. **IMPORTANT** — **DO NOT USE 1" TABLETS IN YOUR SKIMMER, USE 3" TABLETS INSTEAD.**

STORAGE AND DISPOSAL: Keep product dry in a tightly closed container, when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of equipment.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

KEEP OUT OF REACH OF CHILDREN

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust or fumes. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS—STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other products. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases and possible generation of fire and explosion. In cases of contamination or decomposition; do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large volume of water if necessary.

STATEMENT OF PRACTICAL TREATMENT: If swallowed: Feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.
