STORAGE AND DISPOSAL:
Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat and open flame. Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Do not reuse empty container. Completely empty drum by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. Dispose of drum in the same manner. **EMERGENCY HANDLING:** In case of contamination or decomposition of product, do not reuse container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area or bury in a safe place.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles or face shield, use rubber gloves, and use only thoroughly clean, dry utensils when handling. Irritating to nose or throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARDS:
Danger: Strong oxidizing agent. Use only clean, dry utensils. Contamination with moisture, dirt, organic matter or other chemicals (including pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire or explosion. Avoid any contact with flammable or burning material, such as a lighted cigarette. HI CHLOR A.S. decomposes at 460° - 500°F. with liberation of heat and harmful gases. Do not use HI CHLOR A.S. in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARDS:
This product is toxic to fish. Do not contaminate lakes, ponds, or streams by cleaning equipment or disposal of wastes.

HI CHLOR A.S. SANITIZER

Active ingredient
Sodium Dichloro-s-triazinetriene
Dihydrate..... 25 %
Inert ingredients 75 %
Provides 13.8 % available chlorine

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID (Practical treatment):
If Swallowed: Feed large amounts of milk or water and induce vomiting. Call a physician immediately.
If on Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.
If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.
If Inhaled: Remove person to fresh air. Get medical attention.

HI CHLOR A.S. is recommended for use on hard (non-por) surfaces or on dishes, glasses or food processing equip or utensils, including dairy and brewery equipment utensils.

DIRECTIONS FOR USE:
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Prepare a sanitizing solution by dissolving 1 oz. HI CHLOR A.S. per 10 gallons of water. This gives a solution containing 100 ppm available chlorine. Clean and rinse item or surface prior to sanitizing. Then place dishes, glasses, equipment utensils in the solution or spread it over the surface to be sanitized. Let stand 2-5 minutes and then air dry.

The same solution should be used in the feed tank immersion or spray type machines providing 2-5 min contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. After sanitizing, step dry. The items are then ready for use.

The sanitizing solution should be used promptly after each use.
