

EPA REGISTRATION NO. 43994-8	JUL 3 1986
TERM OF ISSUANCE	
NAME OF PESTICIDE PRODUCT Camcodine	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Camco Chemical Co.
1008 W. Janesville Rd.
Hales Corners, WI 53130

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(f). All products that you:

1. Sell or distribute will have required for registration, reregistration or product use (FIFRA sec. 3(e)(2)) when the Agency requires all registrants of such products to submit such data.

2. Add to the label "EPA Registration No. 43994-8" to your label before release for shipment.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(a). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

KEEP OUT OF REACH OF CHILDREN
DANGER

Statement of Practical Treatment

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

CAMCO CHEMICAL COMPANY

FOR SALE FOR USE AND STORAGE
BY MAINTENANCE PERSONNEL ONLY

BEST AVAILABLE COPY

It is a violation of Federal Law to use this product in a manner not intended by the manufacturer.
Apply CAMCODINE to a pre-cleaned surface with a mop, brush, sponge, or by dipping. When applied with a mechanical spray device, surfaces must be wetted. Treated surfaces must remain wet for 2 minutes. Fresh use solution becomes visibly dirty.

Sanitizing — Meat, dairy and food processing equipment and surfaces after scraping, or mopping.

Food and Beverage Sanitization Procedures

Beverage Plants: Thoroughly rinse bottling and pre-mix dispensing equipment with 25 ppm solution (refer to use solution chart). Rinse 25 ppm solution from equipment with potable water. When finished, rinse system well with water, flush with 25 ppm solution. Do not use for 24 hours.

Bottles and Cans: Proportion into the final rinse, or rinses, of 8-12 ppm titratable iodine (see solution chart).

Storage Tanks: After cleaning, use a 25 ppm solution for tank sanitizing. Use solution can be applied by spraying or can be used in circulation systems. No water rinse is required after sanitizing.

Equipment in Poultry, Meat, Rabbit, Egg Processing Plants, etc.: To clean equipment, scrub surfaces with a mop, brush, sponge, or with a clean sponge. Thoroughly wet surface and rinse is required.

Milk, Citrus and Ice Cream Processing Plants: CAMCODINE sanitizing spray (12% ppm to 25 ppm titratable iodine) on walls to reduce or eliminate odors in the processing area. Use on equipment to help prevent milk stone formation on equipment and plating. Follow the state and local health authority recommendation.

USE SOLUTION CHART

Titratable Iodine	CAMCODINE
50 ppm solution	1 oz
25 ppm solution	1 oz
12% ppm solution	1 oz
10 ppm solution	1 oz
8 ppm solution	1 oz

*Refer to use solution chart when recommended in the directions

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
