NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is hereby approved for sale and use in the United States.

1. Submit all data required for registration/reregistration of your product under FIFRA section 2 (b) when the Agency requires all such data of initial product registration data.

2. Make the following changes listed below before you receive the product for shipment:

- a. Add the words "EPA Registration No. 44126-5."
- b. Add the following statement to the front panel:
For Residential/Industrial Use Only
- c. In the Environmental Hazard section, revise the statement pertaining to contamination of water to read: "Do not contaminate water when disposing of empty containers."

Refer to the 2/23/87 letter indicating this product will be sold with a reference label and not sent to the domestic market!

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

BACK PANEL - ARC Flea & Tick Killer indoor Spray

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Spray infested surfaces until wet. Do not use as a space spray.

Do not use in edible product areas of food processing plant, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Remove pets and cover or remove fish bowls before spraying. Do not allow children to contact treated surfaces until surfaces are completely dry.

TO KILL ANTS, CRICKETS, COCKROACHES, SILVERFISH and SPIDERS: Spray areas where these pests are found or may hide, including dark corners or rooms and closets, cracks, crevices, along baseboards, and door sills and frames, behind cabinets and around garbage cans, plumbing and other utility installations. Pests flushed out of hiding should be sprayed directly. Treat ant trails, nests and points of entry. Repeat treatment as necessary.

TO KILL CARPET BEETLES: Spray edges of carpeting and under carpeting and rugs. Make localized application to the floor and baseboards. Spray directly into cracks, crevices, closets and infested areas of shelving. Repeat as necessary.

TO KILL FLEAS AND BROWN DOG TICKS, INDOORS: Clean premises thoroughly before treatment. Using a coarse spray, treat the entire floor and carpet area. Special attention should be given to cracks, crevices and under carpet and rug edges. Also treat animals' sleeping quarters, closets, upholstered furniture (with particular attention to seams) beds, under sofas and other furniture. In animal sleeping quarters, bedding should be cleaned or replaced with fresh bedding. Do not use this application in nurseries or any area where infants may sleep. Apply at the rate of approximately 17 fluid ounces per 100 square feet. To avoid reinfestation, pets must be treated simultaneously with an EPA approved insecticide labeled for use on animals. Application should be repeated as necessary. Humans and pets should avoid contact with treated surfaces (rugs, upholstered furniture, etc.) for 4 hours after treatment.

TO KILL FLIES, MOSQUITOES, SMALL FLYING MOTHS AND WASPS: For outdoor use only as an aid in reducing annoyance from these pests, spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures or porches, in garages and other places where these insects alight or congregate.

TO KILL FLEAS, CHIGGERS AND ANTS, OUTDOORS: For treatment of localized infestation of these insects in outdoor areas, thoroughly spray weeds and bushy non-crop areas around the home. Avoid spraying desirable plants. For ants, thoroughly wet hills and runways. Repeat applications as reinfestations warrant or occur.

STORAGE: Store in original container in a cool, dry area (preferably locked) inaccessible to children and pets and away from heat or open flame. Protect from freezing (32°F). **DISPOSAL:** Do not reuse empty container. Wrap container in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

WARNING: Harmful if swallowed. May be absorbed through skin. Avoid breathing spray mist. May cause eye injury. Wear goggles or safety glasses when applying. Avoid contact with skin or clothing. Wash thoroughly after handling and before smoking or eating. Do not allow spray to contact food, feedstuffs or water supplies. Thoroughly wash dishes and food handling utensils if contaminated by this spray. Do not use on household pets or humans.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call a physician or poison control center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated. **If On Skin:** Remove contaminated clothing and wash affected areas with soap and water. Wash clothing before reuse. **If In Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.
