

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Extremely toxic if swallowed. Not absorbed through skin or eyes. Do not get in eyes or on skin. Do not breathe fumes. Rapidly absorbed through skin. Wear natural rubber gloves, water-proof protective clothing and goggles when handling. Wear a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration (formerly the U.S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part 11.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Keep out of lakes, streams or ponds. Do not apply when conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of waste.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or flame.

STORAGE AND DISPOSAL

Prohibitions: Do not contaminate water, food, or feed by storage or disposal.

Pesticide Disposal: Pesticide that cannot be used according to label instructions must be disposed of according to Federal or approved state procedures under Subtitle C of the Resource Conservation and Recovery Act.

Container Disposal: Do not reuse empty container. Do not incinerate. Dispose of in a sanitary landfill or by other approved State and local procedures.

NOTE TO PHYSICIAN AND ANTIDOTE STATEMENTS

... patient presents aspiration hazard. Gastric lavage should be performed if coma was taken internally.

POISON SYMPTOMS: Symptoms include weakness, headache, tightness in chest, blurred vision, tachycardia, dilated pupils, salivation, sweating, nausea, vomiting, diarrhea and abdominal cramps.

TREATMENT: Atropine is the specific antidote for a large majority of cases against parasympathetic overactivity. If there are signs of parasympathetic stimulation, atropine sulfate should be injected at 10 minute intervals, in 1 mg increments until complete Atropine intoxication has occurred. 2-8 mg. Atropine sulfate may be administered intravenously with Atropine. Morphine is contraindicated. Clear chest by postural drainage.

Repeated exposure to cholinesterase inhibitors may, with warning, cause prolonged sensitivity to very small doses of any cholinesterase inhibitor.

Allergic reactions to cholinesterase inhibitors have been observed as determined by skin test.

KEEP OUT OF REACH OF CHILDREN

POISON DANGER

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison Control Center immediately. Drink 1 to 2 glasses of water and induce vomiting by touching the back of throat with finger, if possible. Vomiting should be induced under supervision. Do not induce vomiting if vomiting is induced by mouth to an unconscious or convulsing person.

If inhaled: Remove victim to fresh air. Apply respiration if indicated.

If on skin: Wash immediately with soap and water.

If in eyes: Flush eyes for 15 minutes with water. Call a physician immediately.

NOTE TO PHYSICIAN AND ANTIDOTE STATEMENT: See label for directions for additional precautionary statements.

DANGER: Do not use in enclosed spaces. Do not puncture. Do not use near heat, open flame. Exposure to temperature above 130°F may cause bursting. Never use near children or animals.

BEST DOCUMENT AVAILABLE

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration in no way constitutes an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Amendment to notice of registration

Product: DVP 200 Aerosol Inc. 1968
EPA registration no. 100-100000-1

Based upon the letter of evaluation from Cosmopolitan Safety Evaluation, West Lafayette, Pa. 15783, the Agency has reached the following determinations:

1. The eye irritation study is acceptable and the product is in Toxicity Category I via this route of exposure.
2. The primary skin irritation study is acceptable and the product is classified as Toxicity Category III for this test.
3. The acute oral LD50 study is also acceptable, with the product in Toxicity Category II by this route of exposure.

As a result of the above, the following additional revisions should be made to the label:

1. Add "Get medical attention if irritation persists" to the "If on skin" advice.
2. Change "Poisonous" to "May be fatal" in the first sentence of the hazard to humans and domestic animals section.
3. In this same section add "To get it off, wash, or strip, or clothing. Wash thoroughly with soap and water after handling and before eating or drinking. Wash contaminated clothing immediately." to the end of the section.

REVISION 1-1-68 (100-100000-1) (100-100000-1) (100-100000-1) (100-100000-1) (100-100000-1)
