 REREГИSTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Associated Warehouse Distributors, Inc.
14701 North Nebraska Avenue
Omaha, Nebraska 68131

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER! Corrosive, may cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waterways unless in accordance with a NPDES permit. For guidance, contact the regional office of the U.S. Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

Dilution Conversion Chart For Sodium Hypochlorite Solution

Start up, or superchlorination of swimming pools dosage is usually 54 oz. to 108 oz. per 10,000 gallons of water to provide 5 to 10 ppm available chlorine for 10.0% Sodium Hypochlorite. See chart for amounts for other label declarations. Maintenance dosage is usually 12 oz. of product per 10,000 gallons of water.

Amount of Water	Available Chlorine	10%
10,000 Gallons	1 ppm	12 oz.
10,000 Gallons	5 ppm	54 oz.
10,000 Gallons	10 ppm	108 oz.

Dosage of Spa/Hot-Tub maintenance dosage 5 oz. of product per 1000 gallons of water to provide 5 ppm available chlorine. Shock treat dosage 8 oz. of product per 500 gallons of water. Daily use of product 4 oz. per 1000 gallons of water.

Amount of Water	Available Chlorine	10%
1000 Gallons	3 ppm	4 oz.
1000 Gallons	5 ppm	5 oz.

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)*

IF CONTACT WITH EYES OCCURS, flush with water for at least 15 minutes. Get prompt medical attention.

IF CONTACT WITH SKIN OCCURS, wash with plenty of soap and water.

IF SWALLOWED, drink large quantities of milk or gelatin solution. If these are not available, drink large quantities of water. **DO NOT** give vinegar or other acids. **DO NOT** induce vomiting. Get prompt medical attention.

(See additional precautions on side panel.)

It is a violation of federal law to

NOTE: This product degrades with time to obtain the required level of available chlorine.

Store this product in a cool dry place. In case of spill, flood areas with water. Spills should be diluted with water before containing food or feed by skin.

SWIMMING POOLS

For a new pool or spring start-up, 54 oz. of product per 10,000 gallons of water to yield 5 to 10 ppm available chlorine. Adjust and maintain alkalinity of the pool to between 7.2 and 7.8.

To maintain the pool, add maintenance dosage of 12 oz. of product per 10,000 gallons of water to yield an available chlorine residual of 5 ppm. Residual and alkalinity of the water must be tested and adjusted as necessary.

Every 7 days or as necessary, test 5 to 10 ppm available chlorine with a test kit. Do not reenter pool until chlorine level is 5 ppm.

At the end of the swimming pool season, the pool must be allowed to dissipate from within 24 hours prior to discharge.

WINTERIZING POOLS: While winterizing a pool, to obtain a residual of 5 ppm available chlorine, apply 54 oz. of product per 10,000 gallons of water. Prepare heater according to manufacturer's instructions.

Apply 5 oz. of product per 1000 gallons of 5 ppm, as determined by a test kit, between 7.2 and 7.8. Some one, total alkalinity, as well as reduce the efficiency.

To maintain the water, apply 5 oz. of a chlorine concentration of 5 ppm available chlorine.

After each use, shock treat with 8 oz. of product per 1000 gallons of water. During extended periods of absence, a 3 ppm chlorine concentration.
