NOTICE OF PESTICIDE  Reregistration  
*Please use this form for Insecticide, Fungicide,  
and Rodenticide (Do not use for Restricted)*

NAME OF PESTICIDE PRODUCT  
**Swimway Liquid Sanitizer**

NAME AND ADDRESS OF REGISTRANT (include ZIP codes)  
**Recreational Warehouse, Inc.  
100 N. Harbor City Boulevard  
Melbourne, FL 32935**

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.  
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. The correct format for the ingredient statement is indicated below. (Note that Sodium hypochlorite is located beneath the heading).

Active Ingredient:  
Sodium Hypochlorite ... 10.0%  
Inert Ingredients ..... 90.0%

2. Revise the ingestion statement to read: "If swallowed, drink large amounts of water. Do not induce vomiting. Call a physician or poison control center immediately".

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL \_\_\_\_\_ DATE \_\_\_\_\_

3. Delete "asterisk" at the end of the "Statement of Practical Treatment (First Aid)" heading.
4. Revise the "Environmental Hazards" statement on the label to read:

"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

A stamped copy of the product label is enclosed for your records. Submit one copy of the final printed label before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Antimicrobial Program Branch  
Registration Division (7505C)

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMAN AND DOMESTIC ANIMALS**

**DANGER:** Corrosive, may cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waterways unless in accordance with a NPDES permit. For guidance, contact the regional office of the U.S. Environmental Protection Agency.

**PHYSICAL OR CHEMICAL HAZARDS**

**STRONG OXIDIZING AGENT:** Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

**Dilution Conversion Chart For Sodium Hypochlorite Solution**

Start up, or superchlorination, of swimming pools dosage is usually 54 oz. to 108 oz. per 10,000 gallons of water to provide 5 to 10 ppm available chlorine for 10.0% Sodium Hypochlorite. See chart for amounts for other label declarations. Maintenance dosage is usually 12 oz. of product per 10,000 gallons of water.

Amount of Water	Available Chlorine	10%
10,000 Gallons	1 ppm	12 oz.
10,000 Gallons	5 ppm	54 oz.
10,000 Gallons	10 ppm	108 oz.

Dosage of Spas/Hot-Tubs maintain dosage 5 oz. of product per 1000 gallons of water to provide 5 ppm available chlorine. Shock treat dosage 9 oz. of product per 500 gallons of water. Daily use of product 4 oz. per 1000 gallons of water.

Amount of Water	Available Chlorine	10%
1,000 Gallons	3 ppm	4 oz.
1,000 Gallons	5 ppm	5 oz.

Net Contents: 2 1/2 Gallons (9.462 Liters)

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

**STATEMENT OF PRACTICAL TREATMENT (FIRST AID)\***

**IF CONTACT WITH EYES OCCURS,** flush with water for at least 15 minutes. Get prompt medical attention.

**IF CONTACT WITH SKIN OCCURS,** wash with plenty of soap and water.

**IF SWALLOWED,** drink large quantities of milk or gelatin solution, if these are not available, drink large quantities of water. **DO NOT** give vinegar or other acids. **DO NOT** induce vomiting. Get prompt medical attention.

(See additional precautions on side panel.)

It is a violation of federal law to use this product without proper labeling.

**NOTE:** This product degrades rapidly. For best results, use as necessary, to obtain the required level of chlorine.

Store this product in a cool, dry place. Avoid direct sunlight. Product or rinsates that can be disposed in a sanitary sewer or feed by storage, disposal.

**SWIMMING POOLS**  
For a new pool or spring start-up, add 12 oz. of product per each 10,000 gallons of water to provide 5 ppm available chlorine. Check the level of available chlorine. Adjust pH to between 7.2 to 7.6. Adjust chlorine residual to between 1.0 to 1.5 ppm.

To maintain the pool, add 5 oz. of product per 10,000 gallons of water to provide 1.0 ppm by weight. Stabilized chlorine is recommended. Test the water frequently with appropriate test kit. Results depend upon temperature and pH.

Every 7 days, or as necessary, for each 10,000 gallons of water, add 5 oz. of product to maintain 1.0 ppm available chlorine. Check the level of available chlorine residual is between 1.0 to 1.5 ppm.

At the end of the swimming pool season, chlorine must be allowed to dissipate. Do not chlorinate the pool.

**WINTERIZING POOLS** - While winterizing a pool, while filter is run, add 1000 gallons, while filter is run, to determine by a suitable test kit. Components for winter by following instructions.

Apply 5 oz. of product per 1000 gallons of water to provide a concentration of 5 ppm, as determined by a suitable test kit. To maintain pool water pH to be between 7.2 to 7.6, use pool cleaners, etc. may cause foam on the surface of the product.

To maintain the water, apply 5 oz. of product per 10,000 gallons of water to provide 1.0 ppm available chlorine. After each use, shock treat with 10 oz. of product per 1000 gallons to treat odor and algae.

During extended periods of disuse, add 10 oz. of product per 1000 gallons of water to maintain a 3 ppm chlorine residual.
