Your letters received January 18, 1990

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

1. For all subject products under **Note to Physician** insert the wording **by injection** into the phrase "Atropine sulfate **by injection** is antidotal."
2. For Animal Insecticide Contains Co-Ral, EPA Reg. No. 44325-3, make the following changes:
 - a. Modify the statement recommending direct application under cattle instructions from "**repeat as necessary**" to read, "**Repeat as necessary but not more often than every 14 days.**"
 - b. The label states "**aids in reducing face fly population**" however there are no direction for use to indicate how to apply the product or the rate of application for this product. You must either provide directions for use or delete the claim.
 - c. Change the EPA Reg. No. on the label from **11849-7** to **44325-3**.
3. For Beef & Dairy Cattle Dust Contains Co-Ral, EPA Reg. No. 44325-4, add the following statements:
 - a. Under the dust bag directions for use: **Manage the dispenser bag so as not to apply more than 1 oz dust**

per animal per day.

- b. Under the Installation instructions, add the sentence: **After the bags are in place, pull the rip cord to allow the insecticide to fall thru the bottom of the bag.**
- c. Add the word **Coumaphos** to the case label in the ingredient statement before the chemical name.
- d. Change the EPA Reg. No. on the label from **11849-12** to **44325-4**.

Submit five copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

Sincerely,

George T. LaRocca
