

USE DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR RESTROOMS AND GENERAL DISINFECTION of hard, non-porous surfaces (glass, metal, plastic, glazed porcelain, linoleum, tile, leather, vinyl, enamel, and finished wood surfaces) on walls, floors, appliances and furnishings in institutions, homes and industrial areas.

CLEANING. Whenever practical, flush away gross soils with water. For cleaning, use 1 to 4 ounces of Germx MC per gallon of water. Cleaning may be accomplished with a clean mop, sponge, squeegee, wet vacuum system, or a mechanical spraying device. After cleaning, remove suspended soils with a clean water rinse, vacuum pick up or by wiping with a clean mop, sponge, squeegee or cloth.

DISINFECTING. Before disinfecting, pre-clean surfaces as directed above. Then prepare 2 ounces of Germx MC per gallon of water and thoroughly wet the surfaces to be disinfected. The disinfecting solution must contact the surface for 10 minutes for proper disinfection. If desired, the surfaces may then be rinsed with clear water or wiped with a clean damp cloth.

FOR DEODORIZING GARBAGE CANS, GARBAGE TRUCKS, INDUSTRIAL WASTE RECEPTACLES AND OTHER GARBAGE HANDLING EQUIPMENT. It is especially important to pre-clean, preferably using a mechanical spraying device, in order for the disinfectant to perform properly. Then apply a wetting solution of 3 - 6 ounces of Germx MC per gallon of water.

FOR CLEANING OF WALLS, FLOORS AND INDUSTRIAL WORK AREAS. Use 2 - 4 ounces per gallon of water. The use of rubber gloves is recommended for personnel doing continuous hand cleaning.

Germx MC may be used through automatic floor scrubbing equipment.

This product must not be used on food contact surfaces.

Germx MC reduces the surface tension of water, improving its wettability. Microbes are capable of mass reproduction in sub-visible pores, scratches and cracks of surfaces. The excellent wettability of Germx MC improves the penetration of the use solution into areas that otherwise might not be reached.

- Germx MC is effective against a wide variety of gram-positive and gram-negative bacteria. It is also an excellent deodorant and is especially effective in controlling odors that are bacterial in origin. Has a pleasant mint odor.

Germx MC mixes with water to form clear, stable use solutions. Use solutions are non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.
