

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER: Corrosive. May cause severe skin irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Treated effluent may not be discharged into lakes, streams, ponds or public waters without a valid discharge permit. For guidance, contact the regional office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS:
STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc. or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to eyes, lungs and mucous membranes.

**"FOR SWIMMING POOL CHLORINATION
AND SANITIZING."**

ACTIVE INGREDIENT
SODIUM HYPOCHLORITE 9.2%
INERT INGREDIENTS 90.8%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID: If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention if swallowed. Drink large quantities of milk or grapefruit juice if these are not available. Drink large quantities of water. Do NOT give vinegar or other acids. Do NOT induce vomiting. Get prompt medical attention.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

DIRECTIONS FOR SWIMMING POOL CHLORINATION:
For a new pool or for spring start-up, superchlorinate with one (1) pint (16 fluid ounces) of this sodium hypochlorite solution for each 2500 gallons of water. This dosage is equivalent to 5 ppm available chlorine by weight.

For Pool Maintenance:
A. Adjust pool water pH to 7.6 - 7.2 range and maintain.
B. Add manually or by a feeder device this sodium hypochlorite solution at a rate to maintain an available chlorine residual of 0.6 to 1.0 ppm. One-half pint (8 fluid ounces) of this sodium hypochlorite solution for each 5000 gallons of water will provide 1.0 ppm available chlorine by weight. Frequency of additions to maintain 0.6 to 1.0 ppm available chlorine will depend upon temperature and number of swimmers. Use test kit to make certain the pH and chlorine residual are in the proper range.

DIRECTIONS FOR DISINFECTION OF POTABLE WATER FOR HOME WELL WATER SYSTEMS:
Combine sodium hypochlorite solution in the ratio of one part sodium hypochlorite solution to 10 parts filtered water. Mix sodium hypochlorite solution and water thoroughly and begin feeding of solution with a hypochlorinator (metering pump). Maintain a free available chlorine residual of at least 0.2 ppm and no more than 0.6 ppm throughout the distribution system as determined by a DPD chlorine test kit. Bacteriological testing of the distribution system should be done only after the chlorine residual has been maintained for 24 hours. Wear protective clothing when handling chlorine water. The water treatment should be continued until the chlorine residual is 0.2 ppm.

DIRECTIONS FOR SANITIZING FOOD PROCESSING OR DAIRY EQUIPMENT:
Wash equipment with water. Then sanitize by spraying or brushing surfaces thoroughly with a solution of 1 part sodium hypochlorite solution to 100 parts water. Rinse with water. For equipment that is not thoroughly washed, use a solution of 1 part sodium hypochlorite solution to 10 parts water. Additional rinsing may be necessary. Use a chlorine test kit to check the available chlorine by weight.

NOTE: This product is not to be used as a chlorine test kit. Please do not use this product as a disinfectant for swimming pools. Use only as directed.
STORAGE AND DISPOSAL: Store in a cool, dry area away from children. Do not use this product in areas with large quantities of water. Rinse thoroughly with water after use. Return to manufacturer in original container. Do not reuse. Do not use in areas where it is not intended. Do not use in areas where it is not intended. Do not use in areas where it is not intended. Do not use in areas where it is not intended.
