**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.  
**READ AND FOLLOW ALL DIRECTIONS AND PRECAUTIONS ON THIS PRODUCT LABEL.**

For Outdoor Use Only. Do not spray in enclosed areas. Avoid breathing a spray product, and do not use it near food. Never use repellents over

cuts, wounds, or irritated skin. Do not apply near eyes and mouth, and apply sparingly around ears. When using sprays, do not spray directly into face; spray on hands first and then apply to face. Do not allow children to handle this product, and do not apply to children's hands. When using on children, apply to your own hands and then put it on the child. Apply only to exposed skin and/or clothing (as directed on the product label). Do not use under clothing. Use just enough repellent to cover exposed skin and/or clothing. Heavy application and saturation is unnecessary for effectiveness; if biting insects do not respond to a thin film of repellent, apply a bit more. After returning indoors, wash treated skin with soap and water or bathe. This is particularly important when repellents are used repeatedly in a day or on consecutive days. Also, wash treated clothing before wearing it again. Use of this product may cause skin reactions in rare cases. If you suspect a reaction to this product, discontinue use, wash treated skin, and call your local poison control center. If you go to a doctor, take this product with you.

Remove protective cap, point spray valve in direction of arrow. Press valve button to spray. Hold can 6-8 inches from skin or clothing while spraying. With slow sweeping motion, slightly moisten surface. FOR CLOTHING: Spray lightly on outer surfaces of clothing where insects are biting through, such as around openings. Will not damage nylon, cotton and wool. Do not use on rayon or dyneel.
