Subject: Notification Submission Stomp Wasp & Hornet Spray EPA Reg.# 44446-54

Dear Mr. Johnson:

Enclosed is EPA form 8570-1, requesting optional label text on the back label text as well as adding the common chemical name for one of the active ingredients located on the front label panel for the above referenced registered product. This request is being submitted via Notification, per PR Notice 98-10. Three label copies of the final printed labeling are enclosed, one copy has all changes highlighted.

The optional test in the "Ingredients" section located on the back label panel is being added as Quest has two alternate formulations for this registration which require different ingredients to be listed.

Thank you for your help in this matter and if you have any questions, please do not hesitate to contact me. My extension is 133.

Sincerely,

QUEST CHEMICAL CORPORATION

Bill Schmidt Product Manager
