UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OCT - 6 2011

OFFICE OF
CHEMICAL SAFETY
AND POLLUTION PREVENTION

Mr. Mitch Whitney
QuestVapco Corporation
P.O. Box 624
Brenham, Texas 77834

Subject: Label Notification(s) for Pesticide Registration 98-10

Dear Mr. Whitney:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated for August 26, 2011:

Alternate Brand Name

Pro-Cide All purpose Insect Killer

The Registration Division (RD) has conducted a review of this request for applicability Under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

EPA Registration Number 44446-77

HUB STATES A-20 Procide Insecticide

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Melody Banks on 703 305-5413.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Suarez", with a large, stylized flourish extending to the right.

Mark Suarez
Product Manager 13
Insecticide Branch
Registration Division (7504P)

PRECAUTIONARY STATEMENTS Hazards To Humans & Domestic Animals CAUTION

Harmful if swallowed. Avoid breathing vapors or spray mist. Avoid contact with skin, eyes or clothing.

Personal Protective Equipment (PPE):

Applicators and other handlers must wear the following:

NOTIFICATION

- Long-sleeve shirt
- Long pants
- Shoes and socks

OCT 06 2011

In addition to the above PPE, applicators using hand held foggers in an enclosed area must wear a half-face, full-face or hood-style NIOSH-approved respirator with

- A dust/mist filtering cartridge (MSHA/NIOSH approval number prefix TC-21C), or
- A canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G, or
- A cartridge or canister with any R, P or HE filter

User Safety Recommendations:

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

FIRST AID	
If Swallowed:	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor for treatment advice. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.
If Inhaled:	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. • Call a poison control center or doctor for further treatment advice.
If On Skin or Clothing:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.

	<ul style="list-style-type: none"> • Call a poison control center or doctor for treatment advice.
If In Eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-255-3924 for emergency medical treatment information.	
NOTE TO PHYSICIAN	
Contains petroleum distillate – vomiting may cause aspiration pneumonia.	

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Precautions & Use Restrictions

- Apply only as specified on this label
- Do not contaminate food or feedstuffs.
- Do not use in aircraft cabins.
- Except when applying through an automatic timed dispenser, do not enter or allow others to enter until sprays have dispersed and the treated area has been thoroughly ventilated. Do not remain in treated area. Exit area immediately and remain outside the treated area until sprays have dispersed
- Except when applying through an automatic timed dispenser, do not apply this product in a way that will contact workers or other persons either directly or through drift. Only protected handlers may be in the area during application.
- Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces or wash them before use.
- For indoor food handling/processing facilities: Do not make space spray applications when facility is in operation. During space spray applications, cover or remove exposed food. During space spray applications, cover food processing surfaces or clean after treatment with a suitable detergent, rinse with potable water before use. Do not apply more than 1 time per day.
- For automatic time dispenser: Not for use in residential areas, nurseries, day care centers, schools, hospitals or nursing homes.

Do not use in rooms where infants, ill or aged persons are confined. Do not place dispensing device directly over or within 8 feet of exposed food, dishes, utensils, food processing equipment and food handling or preparation. Do not install within 3 feet of air vents. Carefully follow directions for the dispenser unit and when replacing cans or conducting maintenance.

- When used in dairy barns or facilities, close milk bulk tank lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.

FLYING INSECTS: *Flies, Sandflies, Mosquitoes, Gnats, Wasps, Small Flying Moths, Fruit Flies, Indian Meal Moths, Almond Moths, Foreign Grain Beetles.*

Hold Container upright with nozzle away from you. Press valve down and spray as directed. To avoid possible staining of fabrics or surfaces, do not spray at close range.

Calculate the cubic feet of the area to be treated. Close all doors and windows. Pointing nozzle upward, direct the aerosol mist to all parts of the room, especially around windows and other light sources which attract these insects. Apply spray continuously at a rate of one second per 1000 cubic feet of space. Keep area closed for fifteen minutes after each treatment. Area treatments can be made when animals are in lounging barns or holding pens.

Out of Doors: For temporary protection from mosquitoes and flies, spray along ground and around bushes and trees. Do not spray ornamental shrubbery.

MUD DAUBER AND WASP NESTS: Spray aerosol directly on insects and their nests from approximately 2 feet distance. Applications should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible.

CHOCOLATE MOTHS, CARPET BEETLES, DRUG STORE BEETLES IN EXPOSED ADULT LARVAE STAGES: Contact as many insects as possible when treating infested areas such as cracks, crevices, packaged store products, machinery, dark secluded areas. Spray 10 to 20 seconds per 100 square feet of floor space.

FLEAS IN BUILDINGS: Close windows and doors. Hold aerosol 36" above floor and direct fog toward floor and lower walls at a rate of 10 seconds per 100

square feet, making sure that all floor, sofa & chair surfaces are contacted. Remove and destroy pet's old bedding. Thoroughly treat area and allow to dry before replacing bedding. Also treat dogs and cats with a registered flea control product before allowing them to enter treated area.

ROACHES, SPIDER, WATERBUGS, ANTS, SILVERFISH, CRICKETS: Hold aerosol close to cracks and fog directly into them, contacting as many insects as possible. Apply freely to all possible hiding places behind baseboards, sinks, cabinets, coffee makers, meter boxes, manholes.

DIRECTIONS FOR HAND-HELD EQUIPMENT (Cylinder):

How To Assemble #100 Applicator:

1. Remove valve protection cap from cylinder.
2. Chain cylinder to cart.
3. Affix the hose and applicator to the valve with slight pressure from a wrench.
4. Do not use without applicator.

How To Operate:

1. With applicator nozzle directed upward, open valve a full turn.
2. Keep the valve in the upright position at all times while in use.
3. Depress trigger on applicator handle to release spray.

OR

How To Assemble #25 [#115] Applicator:

1. Remove valve protection cap from cylinder.
2. Insert cylinder into carrying bag.
3. Affix the hose and applicator to the valve with slight pressure from wrench, if necessary.
4. Do not use without applicator.

How To Operate:

1. Sling strap of carrying bag over shoulder.
2. With applicator nozzle directed upward, open handwheel a full turn.
3. Keep the valve in the upright position at all times while in use.
4. Depress trigger on applicator handle to release spray.
5. Valve must be tightly closed and the cap replaced for storage.

FOR AUTOMATIC TIMED DISPENSER:

Preparation of Factory and/or Warehouse Areas:

The preparation of factory or warehouse area is based primarily on the number of cubic feet of area to be treated. Several A-20 units can be mounted and wired in series. This enables two or more units to be activated simultaneously through the use of a single electrical timer.

Set timer to dispense product only when the facility is not in operation. Cover or remove food. Cover or remove all food handling surfaces, utensils, benches, shelving, etc. or thoroughly wash with an effective cleaning compound followed by a potable water rinse prior to use. Do not allow worker re-entry into treated areas until sprays have dried.

Treatment of Factory and/or Warehouse areas:

The number of units is based on an application rate of 1.5 grams of A-20 per 1000 cubic feet.

How to Assemble and Operate SOLENOID VALVE (SA-5):

1. Attach solenoid valve to cylinder with slight wrench pressure. Note: Valve should be attached in inverted position. Open cylinder valve 2 turns – check for leaks.
2. Invert cylinder and slide into bracket.
3. When utilizing triple nozzle automatic valve, set application timer to correspond with dosage recommendation on left/back panel.

The mechanical equipment used in the application of this insecticidal composition is covered by United States Patent Number 3,209,950 owned by Hub States Corporation.

See manufacturer's instructions for additional information on the automatic timed dispenser system.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Do not store near heat or open flame
Disposal: Do Not Puncture or Incinerate! *If empty:* Place in trash or offer for recycling if available. *If partly filled:* Call your local solid waste agency for disposal instructions.

Instructions for returnable/refillable cylinders:

This cylinder is refillable by manufacturer. Return to manufacturer for deposit or exchange when empty.
