	TERM OF ISSUANCE Until Reregistered	
	NAME OF PESTICIDE PRODUCT Ruminant Premix 14/250 with Rabon	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Professional Products, Inc.
 231 Water Street
 P.O. Box 487
 Sauk City, WI 53583

166/147596
18/1

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 44479-6."
 - b. A Statement of Practical Treatment must be added to the labeling. We suggest the following statement; however, if your toxicological data suggest otherwise, please submit a draft Statement of Practical Treatment for prior approval:

If swallowed - Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with a finger. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL _____ DATE 5/14/86

EPA Form 8570-6 (Rev. 5-76) PREVIOUS EDITION MAY BE USED UNTIL SUPPLY IS EXHAUSTED

- If inhaled - Remove victim to fresh air. Apply artificial respiration if indicated.
- If on skin - Remove contaminated clothing and wash affected areas with soap and water.
- If in eyes - Flush eyes with plenty of water. Call a physician if irritation persists.

- c. Place the signal word CAUTION below the child hazard warning.
- d. Change "Keep out of lakes, streams or ponds" to "Do not apply directly to water."
- e. Any reference to "general use" classification must be removed from Ruminant Premix 14/250 with Rabon labeling. "General Use" as a classification is no longer deemed valid by the Agency, even when products are not subject to restricted use as in the case of Ruminant Premix 14/250 with Rabon. If a product is classified for restricted use, this classification notifies individuals that the chemical may be applied only by or under the direct supervision of a certified applicator. The absence of a restricted use classification clearly implies that the aforementioned restriction does not apply to a particular pesticide or its uses. A second classification for general use is thereby unnecessary and should not appear on your labeling.
- f. Change "Start feeding RABON larvicidal feeds early, etc." to "Start feeding Ruminant Premix 14/250 with Rabon early, etc." or to "Start feeding this premix early, etc."

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

George T. LaRocca
 Product Manager (15)
 Insecticide-Rodenticide Branch

in EPA Letter Docket

MAY 14 1986

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
is awarded for the pesticide
444979-6

FEED INGREDIENTS

Dicalcium phosphate, monocalcium phosphate, calcium carbonate, magnesium oxide, magnesium sulfate, potassium sulfate, zinc oxide, iron sulfate, manganous oxide, copper oxide, ethylene diamine dihydroiodide, cobalt carbonate, iron oxide, processed grain by-products, vitamin A supplement (stability improved), d-activated animal sterol (source of vitamin D-3), vitamin E supplement, ethoxyquin (a preservative), cane molasses, artificial flavor, bentonite, sodium selenite, and mineral oil.

CAUTION

18 pt. Type

Keep out of reach of children *12 pt. Type*

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS

12 pt. type

Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash with plenty of water for 15 minutes. If irritation persists, see a physician.

ENVIRONMENTAL HAZARDS

12 pt. type

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of waste.

STORAGE AND DISPOSAL

12 pt. type

Do not contaminate water, food or feed by storage or disposal.

STORAGE

Store in a dry place in the original container.

PESTICIDE DISPOSAL

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL

Completely empty bag into mixing equipment by shaking and tapping sides and bottom to loosen clinging particles. Then dispose of bags in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
