Directions for Use GENERAL CLASSIFICATION

Use a quart of quat 128 to use this product in a manner consistent with labeling.

quat 128 is a broad spectrum disinfectant and fungicide virucide. In the presence of moderate amounts of organic soil when used as directed.

Apply quat 128 to walls, floors, ceilings, trim, and other surfaces such as toilet bowls, vanity tops, sinks and bedframes. With a cloth or paper towel, apply quat 128 to the dry surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution of quat 128 for each use.

DISINFECTION For disinfection of surfaces, add 1 oz per gallon of water. Treated surfaces must remain wet for 10 minutes. At the end of the 10 minute period, scrub and flush. When disinfecting organic soil in hospitals, nursing homes, schools, institutions, and other areas, use a solution of water.

SANITIZING To sanitize surfaces, add 1 oz per gallon of water. Treated surfaces must remain wet for 10 minutes.

FOR HOSPITALS, NURSING HOMES, SCHOOLS, INSTITUTIONS AND INDUSTRY, ADD 1 OZ PER GALLON OF WATER. The broad spectrum activity of quat 128 has been demonstrated to be effective against the following organisms by the AOAC:

AOAC FUNGICIDAL TEST quat 128 is effective against the following fungi when used on surfaces:

VIRUCIDAL PERFORMANCE quat 128 is effective against the following viruses when used on surfaces:

SANITIZING NON-FOOD CONTACT SURFACES quat 128 is effective against the following organisms when used on surfaces:
