Dear Ms. Smith:

Subject: Label Amendment- Revise Graphics
Poridon
EPA Registration No. 44716-3
Your Submissions dated August 22, 1996 and December 27,
1996

The application referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following comments, and a copy of a stamped label is enclosed for your records.

1. We note the use of the term "time release". Is the active ingredient encapsulated in the formulation, i.e. microencapsulated, to allow it to be released over time? Please explain. If not delete the phrase. We made a similar comment in our letter of July 21, 1987.

2. Revise the second sentence under Environmental Hazards to read "Do not contaminate water by disposal of equipment washwaters."

Sincerely yours,

George T. LaRocca
