SALINE "88"

**INDUSTRIAL WATER MICROBICIDE
PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC
ANIMALS**

DANGER:
Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS:
This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance contact your regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS:
Strong oxidizing agent. Mix only with water. Use clean utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, generation of

hazardous gases and possible generation of fire explosion. In case of contamination or decomposition do not reuse container. If possible isolate container in open air or well ventilated area. Flood with large volume of water if necessary.
Active Ingredient
Sodium Dichloro-s-triazinetrione 99.3%
Dihydrate
Inert Ingredients 0.7%
Provides 55% available chlorine
EPA Reg. No. 730-98 EPA Est. No. 238-WVA-01

**KEEP OUT OF REACH
OF CHILDREN
DANGER**

PRACTICAL TREATMENT: FIRST AID
If swallowed: Feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.
If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention.
If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.
SEE ADDITIONAL PRECAUTIONS OF SIDE PANEL.

Net Contents

SALINE "88" industrial water biocide is recommended for use in either industrial cooling water or in industrial water for washing air.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Industrial Cooling Tower Water
For badly fouled systems add 1 $\frac{1}{2}$ or 3 lbs. of SALIN "88" industrial water biocide daily for each 10,000 gallons of system water. This provides 10 ppm and 20 ppm available chlorine respectively. Repeat each day until the system is free of visible fungi and algal slime. This condition is usually indicated when a free available chlorine residual of at least 1 ppm is found four hours after the treatment. When a system is under control add 5 or 10 oz. of SALIN "88" industrial water biocide daily per 10,000 gallons of system water to provide 2 or 4 ppm free available chlorine respectively. These amounts may be raised or lowered as required and indicated by water conditions and by test for chlorine residual. Reliable test kits for testing free available chlorine are available and should be used. The SALIN "88" industrial water biocide should be added

directly from the container to a place in the system where it will be evenly mixed with the water.

WATER FOR AIR WASHERS. Air-washing systems that maintain effective mist eliminating components. In starting a new system add $\frac{1}{2}$ lb. to $\frac{3}{4}$ lb. of SALIN "88" industrial water biocide per 10,000 gallons of water in the system. This provides 4 or 5 ppm of free available chlorine respectively. For routine control add $\frac{1}{4}$ to $\frac{2}{4}$ oz. of SALIN "88" industrial water biocide per 10,000 gallons of water daily. This will provide 0.5 or 1.0 ppm free available chlorine. These amounts may be raised or lowered as required and indicated by water conditions and tests for free available chlorine. Reliable test kits are available for testing chlorine and should be used.

STORAGE AND DISPOSAL
Keep product dry in tightly closed container when not in use. Store in a cool, dry well-ventilated area away from heat or open flame. In case of decomposition isolate container if possible and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area or bury in a safe place.

HYDRA-TONE CHEMICALS, INC.

ACCEPTED
with COMMENTS
in EPA Letter Dated

APR 25 1985

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.
44801-8

Hydrus, Inc.
645 N. Webster Street
Naperville, IL 60540

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Add the phrase "EPA Registration No. 50265-4" to your label before you release the product for shipment.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
